Backend Engineer(Part-time)

[Apply Now](#)

Company: Dream Games

Location: Şişli

Category: other-general

Job Description

We are looking for a passionate part-time backend engineer who wants to gain experience in backend development. This is an exciting opportunity to be responsible for designing, developing, and deploying the large-scale backend architecture of mobile games. In this role, by working with TechOps, you will develop highly scalable technologies that allow millions of users to play our games. You will also work closely with the game development team to do what's best for the games.

At Dream Games, all team members have a genuine chance to contribute to the final product and have an impact on the company. If you want to be a team member of a fast-growing company, you might be the person we are looking for!

Responsibilities

Designing, architecting, testing, and implementing features in our core services

Developing large-scale backend architecture of mobile games

Building valuable tools to support the game development process

Delivering well-structured code and participating in code-review sessions

Creating flexible code that can be easily updated as the product evolves

Requirements

Pursuing your 4th year and graduating in 2024 or January 2025 from the field of Computer Science, Computer Engineering, or Software Engineering

Knowledge of Object-Oriented Programming

Familiar with Java and Spring

Available for a minimum of three days per week

Passion and interest in games

Appreciation and understanding of teamwork

Protecting your privacy and the security of your data is a top priority for Dream Games. We collect and process your personal data as confidential as part of the recruitment process.

Please read our and to know more details.
