Company: Sovos

Location: İstanbul

Category: other-general

Build your future with Sovos.

If you're seeking a career where innovation meets impact, you've come to the right place.

As a global leader, Sovos is transforming tax compliance from a business requirement to a force for growth while revolutionizing how businesses navigate the ever-changing regulatory landscape.

At Sovos, we're dedicated to more than just solving compliance challenges – we're committed to making a positive and lasting difference in everything we do. Our teams operate on the modern edge of digital technology, working not only to solve complex business challenges but also to enrich our personal, professional, and local communities. Our purpose-built systems provide the tools you need to thrive in a world where governments demand increased visibility, faster reporting and greater control over business processes. Excited about the possibilities? So are we!

Don't worry if you don't check all the boxes – apply anyway! We're focused on hiring the right people, not just the right resume. It's not about what you've done elsewhere; it's all about what you're capable of doing here.

The Work You'll Do:

The Backend .NET Developer can leverage technology to solve difficult problems at scale, taking into consideration aspects like security, performance, reliability, and maintainability.

This role challenges the individual to adapt quickly and work effectively, sharing technical knowledge to build and deploy high quality software that satisfies our customers.

More specifically you will:

Implement applications in .NET 6 using services like Amazon EKS, Amazon MQ, Mongo DB Atlas and Amazon ElastiCache hosted in AWS.

Collaborate with Product Managers, Product Owners, Architects and Business Analysts to refine requirements and designs

Deploy, monitor and maintain cloud-based applications and services

Participate on cross functional teams to deliver solutions from the point of inception through customer delivery

Seize opportunities to improve processes, standards and practices

Work as a team member and with more senior developers on complex stories & tasks

Develop software consistent with Sovos coding standards & conventions

Collaborate in a fast-paced agile environment under tight deadlines to “ship” new releases each sprint

Take part in an active culture of learning by exploring new technologies and participating in knowledge sharing

What We Need From You:

3+ years of successfully working in a team-oriented development organization

Advanced English skills are required (written and verbal)

In addition to have a good knowledge about .NET frameworks, you have deep knowledge in some, or all these areas: SQL and NoSQL databases Redis Deployment pipelines Message queue mechanisms Web Services (SOAP, REST) JSON/XML JavaScript / Experience and understanding of CI/CD principles Test automation Git

What Does Sovos Offer You?

The tools to enhance your life - because we want you to enjoy your life outside of work and inside!

Mentoring Programs

Management Bootcamps and Development Trainings

Yearly performance reviews where compensation and performance are assessed and rewarded generously

Clear paths for growth within our roles (but we know that career development can be like a spider web, not a ladder - we give you the tools to move outside of your career as well!)

Sovos is an equal opportunity employer committed to providing an environment that celebrates diversity and where equal employment opportunities are available to all applicants and employees. We do not discriminate against race, colour, religions, national origin, age, sex, marital status, physical or mental disability, veteran status, gender identity, sexual orientation, or any other characteristic provided by law. At Sovos, all employees are encouraged to bring their whole selves to work.
