## Backend .NET Developer

[Apply Now](#)

Company: Sovos Compliance

Location: İstanbul

Category: other-general

### **Build your future with Sovos.**

If you're seeking a career where innovation meets impact, you've come to the right place. As a global leader in compliance, we're driving growth while revolutionizing how businesses navigate the ever-changing regulatory landscape.

At Sovos, we're dedicated to more than just solving compliance challenges – we're committed to making the most of the modern edge of digital technology, working not only to solve complex business challenges but also to create new ones. Our purpose-built systems provide the tools you need to thrive in a world where governments demand more. About the possibilities? So are we!

Don't worry if you don't check all the boxes – apply anyway! We're focused on hiring the right people who are capable of doing here.

### **The Work You'll Do:**

The Backend .NET Developer can leverage technology to solve difficult problems at scale, taking on complex challenges the individual to adapt quickly and work effectively, sharing technical knowledge to build high-quality solutions.

*More specifically you will:*

- Implement applications in .NET 6 using services like Amazon EKS, Amazon MQ, Mongo DB Atlas

- Collaborate with Product Managers, Product Owners, Architects and Business Analysts to refine requirements

- Deploy, monitor and maintain cloud-based applications and services

- Participate on cross functional teams to deliver solutions from the point of inception through customer adoption

- Seize opportunities to improve processes, standards and practices

Work as a team member and with more senior developers on complex stories & tasks

Develop software consistent with Sovos coding standards & conventions

Collaborate in a fast-paced agile environment under tight deadlines to “ship” new releases each

Take part in an active culture of learning by exploring new technologies and participating in kno

### **What We Need From You:**

3+ years of successfully working in a team-oriented development organization

Advanced English skills are required (written and verbal)

In addition to have a good knowledge about .NET frameworks, you have deep knowledge in so

SQL and NoSQL databases

Redis

Deployment pipelines

Message queue mechanisms

Web Services (SOAP, REST)

JSON/XML

JavaScript / Node.JS

Experience and understanding of CI/CD principles

Test automation

Git

### **What Does Sovos Offer You?**

*The tools to enhance your life - because we want you to enjoy your life outside of work and inside!*
