Your responsibilities include, but are not limited to:

Conduct research, collect, process, and analyze data from various sources, such as company reports, industry publications, databases, and online platforms,

Monitor and update the performance and valuation of mining companies and development projects, using financial and technical indicators,

Assist senior managers with various tasks, such as preparing proposals, conducting due diligence, preparing presentations on based technical evaluations or other topics as required,

Follow up the process of current projects, and support defining new projects' potentials and risks,

Assist financial valuation studies for current projects,

Support the authorized financial institution for completing the valuation report by sending necessary information and documentation within the scope of company valuation procedures,

Prepare reports of potential mine projects,

Prepare monthly and quarterly reports,

Be in communication with third party companies. Also, assist and support Due Diligence processes,

Actively support the development projects of the company, provide internal and external support of related contents,

Work with a cross-functional project or deal team collaboratively,

Work with outside counterparties as appropriate (including target companies' financial responsible, consultants and legal advisors),

Perform site visits for longer period if necessary.

About You

To qualify, the following skills and experiences are required:

Bachelor's degree in mining engineering with preferably an MBA in management,

1-5 years of experience in mining sector,

Working experience in multinational and English-speaking environment is a plus,

Strong English language skills,

Proficiency in using various software and tools, such as Microsoft Excel, PowerPoint, Word, Power BI and data visualization tools, leapfrog, MapInfo, ArcGIS, or similar programs,

Knowledge of CRIRSCO standards,

Being available for frequent travel for extended periods,

Work in a team environment,

Strong negotiation and representation skills,

Ability to take initiative,

Strong research and detail-oriented skills,

A willingness to learn and increase technical capacity and professional qualifications.

Our ideal candidate is team-oriented, self-motivated, and willing to share knowledge.

This is your chance to be part of an established, industry-leading global organization with incredible room for career growth and personal development.

If you have the relevant skills to bring success to our team, then we invite you to **apply today** !
