

Chemical Engineer - (Saudi Arabia)

[Apply Now](#)

Company: Eram Talent

Location: İstanbul

Category: other-general

Eram Talent, a leading talent acquisition company specializing in chemical engineering, is seeking a skilled Chemical Engineer to join our team in Saudi Arabia. As a Chemical Engineer at Eram Talent, you will work closely with our clients in various industries to design, develop, and optimize chemical processes. Your expertise will contribute to the successful implementation of innovative solutions, ensuring optimal efficiency and productivity.

Responsibilities

Design and develop chemical processes and systems based on client requirements.

Perform process simulations and analysis to identify improvement opportunities.

Collaborate with cross-functional teams to ensure successful implementation of new processes.

Create and maintain technical documentation such as process flow diagrams, P&IDs, and operating procedures.

Conduct equipment sizing and selection for various process components.

Stay updated with industry trends and advancements in chemical engineering.

Provide technical support and troubleshooting assistance to clients.

Participate in continuous improvement initiatives to optimize processes and reduce costs.

Requirements

Bachelor's degree in Chemical Engineering or a related field.

Minimum of 7 years of professional experience as a Chemical Engineer.

Experience in the oil and gas industry is highly preferred.

Proficiency in process simulation software and tools.

Strong knowledge of process equipment sizing and design principles.

Familiarity with industry standards and regulations.

Excellent problem-solving and analytical skills.

Effective communication and interpersonal abilities.

Ability to work collaboratively in cross-functional teams.

Knowledge of safety and environmental regulations.
