Company: Assystem

Location: Mersin

Category: other-general

Company Description

Finding solutions to climate change is the priority of the 21st century, and means switching to low-carbon energy. At Assystem, our mission is to accelerate the energy transition worldwide. To achieve this, our 7,000 Switchers combine their historical engineering expertise and project management with digital technologies.

In our 12 countries (Europe, Middle East, Asia) of operation, we are working on the production and distribution of low-carbon electricity, through the development of nuclear and renewable energies. We are also supporting the modernisation and development of energy grids, managing the setup and siting for new transmission and distribution networks, and using hydrogen to decarbonise the transport and industry sectors.

Within the framework of a contract in force with AKKUYU NÜKLEER (from the Russian Group ROSATOM), AEOS is in charge of the quality inspection of the construction and installation works related to the structures, systems and components important for nuclear safety of the 1st Nuclear Power Plant (NPP) of Turkey, of which construction is ongoing at Akkuyu site in the province of Mersin until 2028

Job Description

Civil Finishing Works inspector is in charge of performing predefined checks regarding the conformity of finishing works of the NPP buildings. These inspections will concern mainly

finishing works of floors, walls and ceilings, fixing ceramic tiles, sanitary fixtures, accessories, paintings, wooden doors, aluminium windows, partitions, cladding, metal works such as handrail, grating, louvers etc.

Qualifications

Responsibilities

- Ensure that the finishing works inspected are compliant with applicable technical and regulatory requirements
- Ensure the traceability of the inspections performed, of the defaults and deviations observed and of the non-conformities issued
- Verify the defaults, deviations or non-conformities are properly corrected
- Ensure his/her inspection activities are performed in a safely manner

Duties

- Carry out all his/her inspection activities in compliance with the Turkish regulation 30024 related to the quality inspection of the nuclear power plants
- Take knowledge of the Akkuyu NPP Project referential (norms, standards, specifications, procedures, etc.) related to the architectural / finishing works
- Review and comment the execution documentation (technical drawings, quality plans ...) related to the works to be inspected
- Prepare the inspection on site by identifying the elementary checks to be carried out, considering the requirements defined by the Turkish law 30024
- Conduct the inspection on site in order to verify the compliance of the finishing works executed with the execution documentation and applicable norms and standards
- Elaborate Work Inspection Reports in order to keep record of the content and the results of

the inspection performed on site

- Describe and record the defaults or deviations observed during the inspection and follow-up their resolution
- Perform an assessment on the defaults and deviations recorded, and when decided, describe and write a non-conformity notification, then monitor the corresponding corrective and preventive actions
- Launch independent tests on samples, when necessary (i.e. paint pull-off tests, surface humidity), to be performed by accredited laboratories and follow up the results
- Respect the existing AEOS NCIO project Quality Assurance processes and HSE requirements
- Contribute to the elaboration of the AEOS NCIO Project Monthly Report, by providing information on inspection activities carried out during the month
- Attend, on request, internal or external technical meetings

Interfaces

- Belong to the AEOS NCIO Inspection Team
- Report to the Civil-Works Lead Inspector and follow his/her instructions
- Notify the Civil-Works Lead Inspector of defaults, deviations and non-conformities and on their resolution status
- Interface with the AEOS NCIO Project Support team, on documentation management topics and for the elaboration of the Monthly Report
- Respect the instructions given by the QHSE team regarding Quality Assurance and HSE requirements
- Communicate and exchange on a daily basis with all the stakeholders involved in the construction civil works, in order to efficiently perform the inspection activities

Knowledge

- Knowledge of civil construction works standards:
 - o ISO 9001 - Quality Management

- o TS500 - Reinforcement concrete structure design and execution
- o TSEN206-1 & TS13515 - concrete standards
- o TS708 - Reinforcement material standard
- o SP7 - Russian standard for civil structure execution
- Fluent in Turkish - read and spoken
- Fluent in English - read, spoken and written
- Fluent in Russian - read, spoken (will be a plus)
- Microsoft Office software (professional use)

Skills

Ability to quickly understand technical requirements (e.g. specifications, drawings, codes, norms)

Ability to write technical documents and reports

Good written and verbal communication skills

Ability to communicate proactively in a multicultural environment

Ability to meticulously observe in order to detect non-compliances

Behaviour

Impartial and upright: capacity to stay neutral and to perform independent inspection

Resistance to pressure from others in order not to deviate from quality and safety targets

Organised: capacity to efficiently identify and manage the element to be inspected, and to properly address the phases of inspection in due time (preparation, execution and reporting)

Rigorous: able to collect and record justifications to support results of inspection

Education

Technical diploma in civil-works field (High school + 2 years as a minimum)

Undergraduate diploma in civil field (High school + 4 years, will be a plus)

Experience

3 years in inspection and/or in quality assurance/quality control in civil-works

5 years minimum of professional experience in civil-works in construction or industrial projects

Experience in a Russian construction project (will be a plus)

Qualification

- ISO 9001 certificate (will be a plus)

Specific requirements

Driving license mandatory

Military service completed

Flexibility in working time due to construction site necessities

Additional Information

We are committed to equal treatment of candidates and promote, as well as foster all forms of diversity within our company. We believe that bringing together people with different backgrounds and perspectives is essential for creating innovative and impactful solutions. Skills, talent, and our people's ability to dare are the only things that matter !. Bring your unique contributions and help us shape the future.
