Company: Assystem

Location: Mersin

Category: other-general

Company Description

Finding solutions to climate change is the priority of the 21st century, and means switching to low-carbon energy. At Assystem, our mission is to accelerate the energy transition worldwide. To achieve this, our 7,000 Switchers combine their historical engineering expertise and project management with digital technologies.

In our 12 countries (Europe, Middle East, Asia) of operation, we are working on the production and distribution of low-carbon electricity, through the development of nuclear and renewable energies. We are also supporting the modernisation and development of energy grids, managing the setup and siting for new transmission and distribution networks, and using hydrogen to decarbonise the transport and industry sectors.

Assystem in Türkiye, is renowned for working with the public and private sectors.

Specializing in ESIA studies, site investigations, and laboratory research, the company offers vital site supervision owners and lenders engineering services. Notably, Assystem in Türkiye plays a pivotal role in major projects like power generation, and the construction of the Akkuyu nuclear power plant.

Job Description

Civil-works inspector is in charge of performing predefined checks regarding the conformity of construction works of the NNP buildings. These checks will concern mainly reinforcement

installation, formworks and concrete works.

Qualifications

Responsibilities

- Ensure that the civil works inspected are compliant with regulatory and technical requirements according to the Turkish law 30024 (regulation which defines the content of the inspection of nuclear installation)
- Ensure the traceability of the inspections performed, of the defaults and deviations observed and of the non-conformities issued
- Verify the defaults, deviations or non-conformities are properly corrected
- Ensure his/her inspection activities are performed in a safely manner

Duties

- Take knowledge of NPP Project referential (norms and standards, specifications, procedures, etc.) related to the construction and installation works to be inspected
- Review and comment the execution documentation (technical drawings, quality plans ...) related to the works to be inspected
- Prepare the inspection on site by identifying the elementary checks to be carried out, considering the requirements defined by the Turkish law 30024
- Conduct the inspection on site in order to verify the compliance of the civil works executed with the execution documentation and applicable norms and standards
- Elaborate Work Inspection Reports in order to keep record of the content and the results of the inspection performed on site
- Describe and record the defaults or deviations observed during the inspection and follow-up their resolution
- Perform an assessment on the defaults and deviations recorded, and when decided, describe and write a non-conformity notification, then monitor the corresponding corrective and preventive actions
- Launch when necessary independent tests on samples (i.e. rebar, concrete etc), to be performed by accredited laboratories and follow up the results
- Respect the existing AEOS NCIO project Quality Assurance processes and HSE requirements
- Contribute to the elaboration of the AEOS NCIO Project Monthly Report, by providing

information on inspection activities carried out during the month

- Attend, on request, internal or external technical meetings

Profile

Interfaces

- Belong to the AEOS NCIO Inspection Team
- Report to the Civil-Works Lead Inspector and follow his/her instructions
- Notify the Civil-Works Lead Inspector of defaults, deviations and non-conformities and on their resolution status
- Interface with the AEOS NCIO Project Support team, on documentation management topics and for the elaboration of the Monthly Report
- Respect the instructions given by the QHSE team regarding Quality Assurance and HSE requirements
- Communicate and exchange on a daily basis with all the stakeholders involved in the construction civil works, in order to efficiently perform the inspection activities

Knowledge

- Knowledge of civil construction works standards:
 - o ISO 9001 - Quality Management
 - o TS500 - Reinforcement concrete structure design and execution
 - o TSEN206-1 & TS13515 - concrete standards
 - o TS708 - Reinforcement material standard
 - o SP7 - Russian standard for civil structure execution
- Fluent in Turkish - read and spoken
- Fluent in English - read, spoken and written
- Fluent in Russian - read, spoken (will be a plus)
- Microsoft Office software (professional use)

Skills

- Ability to quickly understand technical requirements (e.g. specifications, drawings, codes, norms)
- Ability to write technical documents and reports
- Good written and verbal communication skills
- Ability to communicate proactively in a multicultural environment
- Ability to meticulously observe in order to detect non-compliances

Behaviour

- Impartial and upright: capacity to stay neutral and to perform independent inspection
- Resistance to pressure from others in order not to deviate from quality and safety targets
- Organised: capacity to efficiently identify and manage the element to be inspected, and to properly address the phases of inspection in due time (preparation, execution and reporting)
- Rigorous: able to collect and record justifications to support results of inspection

Education

- Technical diploma in civil-works field (High school + 2 years as a minimum)
- Undergraduate diploma in civil field (High school + 4 years, will be a plus)

Experience

- 3 years in inspection and/or in quality assurance/quality control in civil-works
- 5 years minimum of professional experience in civil-works in construction or industrial projects
- Experience in a Russian construction project (will be a plus)

Qualification

- ISO 9001 certificate (will be a plus)

Specific requirements

- Driving license mandatory
- Military service completed
- Flexibility in working time due to construction site necessities

Additional Information

Nous nous engageons au respect de l'égalité de traitement entre les candidats, et célébrons toutes les formes de diversité. Chez Assystem, seules les compétences comptent ! Si vous souhaitez porter à la connaissance d'Assystem une quelconque situation ou des besoins spécifiques, n'hésitez pas vous serez accompagné(e) !
