Category: other-general

Description

Your dream job does exist.

Discover it at Vodafone!

We are looking for a **Commercial Analytics & Automation Projects Manager.**

First things first: Our Brand.

Here are the key behaviours that help us bring our Spirit and Purpose to life:

• Earn customer loyalty: Small things do matter.

• Experiment, learn fast: Just take the chance.

• Create the future: That's possible.

• Get it done, together: It's up to each of us to make it happen.

Here, everyone can feel free to be themselves and express their ideas.

We are proud to have the most flexible #hybrid way of working in Turkey.

Together with your team, you can decide which days to come to the office depending on your work requirements.

Another favorite: Meeting-free afternoons! Every Friday, arrival of the noon means we can start to take it easy: spend time working on our personal development or catching up with our team. We call this #CumaKafası (Friday mood :)).

And yes we are Agile! The world is constantly changing. And we cannot afford not to! Our journey began by simplifying our organizational model and transforming into a more agile structure that now we use extensively, especially in our development processes.

Why is this role really critical to us?

• Responsible from Vodafone Business Unit's data sanitization & visualization projects

• Responbible from Vodafone Business Unit SFA tool & seamless Lead to Cash process (Project One-Stream)

How will you spend your time at Vodafone?

• Leading analytics initiatives to drive strategies on multiple growth priorities

• Drive Automation and ongoing improvements of analytical frameworks

• Manage the Vodafone Business Sales Automation Tool product backlog and align to the Business Roadmap

• Lead to Cash process are accurate in sources and reportable at the DWH level

• Conducting B2B whitespace analyses

• Identify areas for data quality improvements and helps to resolve data quality problems through the appropriate choice of error detection and correction.

• Manage data quality & standardization projects.

• Automating the forecasting mechanism through funnel reports

You are just the person we've been looking for, if you have:

• Graduate from Business Administration, Industrial Engineering, Economics

• At least 6 years of experience

• Excellent command of English

• Excellent command in MS Office Programs (SQL and Excel VBA knowledge is an asset)

• Ability to prioritize and manage multiple projects and collaborate across teams

• Good understanding of the Telecommunications Business

• Good understanding of the Company's Operating Structure

• Strong interpersonal communication skills.

• Anticipate and solve problems with a consensus based approach and harmony

• Ready to take new responsibility

• Share knowledge with colleagues

- Strong analytical skill and be eligible in team working

- Responsibility, Self-respect and self-reliance
