Real World Commercial Solutions to Create a Healthier World

In RWCS we're passionate about improving the life sciences ecosystem and making decisions that accelerate innovation for a healthier world. Every day our team develops evidence-based strategies that are used in published research, clinical guidelines, and market access decisions, to improve healthcare at every touchpoint. We design and deliver strategic evidence, supported by our world-class proprietary data assets, solve complex client challenges through strategic consulting, and use leading edge market research techniques to support clients policy, asset strategy, planning and measurement. We're purpose-driven problem solvers, that do what we love to make a greater impact on human health.

Integrated Research

We focus on listening to the key stakeholder voices (patient, HCP, policymaker, regulator) in multi-country studies for international pharmaceutical companies and international organisations (WHO, CEPI, etc.). Our team focuses on exploring and measuring what Health Care Professionals and patients say and do using different behavioural frameworks to deliver actionable insights and clear answers to our clients' business questions. We typically use IQVIA data to contextualise our research and collaborate with other IQVIA teams to provide our clients with comprehensive solutions to their business issues.

The Role

In this role, you'll be providing high-quality and timely analysis to client projects. By applying

keen problem-solving skills, solution-driven thinking, and keenness to deliver client satisfaction, you'll have a hand in impacting global projects. This exciting opportunity will allow you to experience what it takes to make a positive change in healthcare and hone your skills while learning from the best.

What You'll Be Doing

Assisting with the review and analysis of client requirements or problems, and developing solutions, under supervision

Assisting in developing detailed documentation and specification, and creating appropriate presentations

Performing quantitative and qualitative analysis

Developing a basic knowledge of consulting methodologies and the life sciences market through proactive engagement in formal and informal learning opportunities

Who You Are

A university degree holder in life sciences, economics/business with a track record (minimum 2 years) in public health work or consultancy or PMR experience in LMICs

An excellent business and conversational English speaker and writer with IT literacy and proficiency in Word, PowerPoint, and Excel.

A passionate learner with proven analytical, interpretative, and problem-solving skills that can commit to a rapid development curve

A self-starter with proven time management and personal organisational skills. We're looking for attention to detail and the ability to deliver high-quality work within projected timelines

Benefits

We work hard to prioritise the things that matter most to you. Visit our benefits page for information on everything from perks to well-being initiatives and career enhancement. The preferred candidate will be creative, dynamic, resolute, open minded, autonomous and at the same time have great team spirit

IQVIA is a leading global provider of advanced analytics, technology solutions and clinical research services to the life sciences industry. We believe in pushing the boundaries of

human science and data science to make the biggest impact possible – to help our customers create a healthier world. Learn more at
