

## CRA/Senior CRA (Oncology)

[Apply Now](#)

Company: AstraZeneca

Location: Ankara

Category: other-general

### Description

Perform monitoring and site management activities for phase trials projects to assess the progress of clinical projects at assigned investigative/physician sites

Ensure clinical project is conducted, recorded, and reported in accordance with the protocol, Company SOPs, ICH-GCP, and all applicable local and legal requirements.

May assume clinical functional leadership tasks are assigned, actions as Lead CRA for project

Train, support and advise Investigators and site staff in study related matters, including Risk Based Quality Management (RbQM) principles.

Drive performance at the sites. Proactively identify and ensure timely resolution to study-related issues and escalate them as appropriate.

Perform regular Site Quality Risk Assessments and adapt monitoring intensity accordingly during the study.

Ensure data query resolution in a timely manner.

Work with data management to ensure the robust quality of the collected study data.

Collaborate with local MSLs as directed by LSM or line manager

### Why AstraZeneca?

A high performing team, we work hard to not just meet but go beyond the needs of patients

and the wider healthcare industry We leverage our partnerships with external experts across the industry, to create and communicate evidence that changes medical practice. As a partner for many, we effectively communicate complex ideas whilst seeking to understand ever-changing needs and requirements. Our valuable contribution and scientific expertise is responsible for advancing our pipeline and accelerating our pathway to finding a cure.

Are you already imagining yourself joining our team? Good, because we can't wait to hear from you.
