Delivery & Test Engineer SRE

[Apply Now](#)

Company: Huawei Telekomünikasyon Dış Ticaret Ltd

Location: Turkey

Category: other-general

We are looking for Delivery & Test Engineers for Big Data Platforms and Products. In this position, you will have a chance to be involved in end-to-end test and verification for any projects, products or packages on Huawei Big Data Platforms which is developed by Huawei Engineers. You will be responsible for acceptance of any deliverables with the customer on-site.

Requirements

Professional Required Skills:

Minimum bachelor's degree (preferably in a computer engineering, electrical engineering, software engineering or equivalent)

Experience in test engineer position more than 2 years

Experiences in test techniques and methodologies

Good knowledge about Linux OS in operation and maintenance

Familiarity with DB systems (oracle, mysql, etc.)

Familiarity with DB cloud/Bigdata, basic knowledge for docker, K8s

Network knowledge is preferable.

Good communication and production/live environment operation experience.

Identification, analysis, and documentation skills for any defects discovered during

testing/acceptance by providing fine-tuning recommendations.

Personal Required Skills:

Agile oriented; focused on delivery and customer first,

Adaptive; responsive for on-demand changes,

Dedicated; working hard to finish tasks on-time with high quality,

Open; collecting feedbacks and defining actions for self-improvement.

Strong issue analysis and problem-solving skills are essential,

Good command of English is essential.

Benefits

Activities:

1. Deployment

Deployment bigdata/AI service to servers according to our technical solution document within planned time.

Pressure and risk awareness are required

2. Acceptance

Giving acceptance after deployment according to acceptance guide documents and giving support to customer for their acceptance.

Good communication, strong coordination capabilities, drive issues to be solved

3. Improvement

Summarization of delivery/acceptance issues, their solutions and gained experience by documentation to improve quality and efficiency

4. Maintenance

After delivery, giving support for system maintenance of issue
