

Turkey Jobs Expertini®

DevOps Engineer

[Apply Now](#)

Company: Vodafone

Location: Istanbul

Category: other-general

Your dream job does exist.

Discover it at Vodafone!

We are looking for a **DEVOPS Engineer**

First things first: Our Brand.

Here are the key behaviours that help us bring our Spirit and Purpose to life:

- Earn customer loyalty: Small things do matter.
- Experiment, learn fast: Just take the chance.
- Create the future: That's possible.
- Get it done, together: It's up to each of us to make it happen.

Here, everyone can feel free to be themselves and express their ideas.

We are proud to have the most flexible #hybrid way of working in Turkey.

Together with your team, you can decide which days to come to the office depending on your work requirements.

Another favorite: Meeting-free afternoons! Every Friday, arrival of the noon means we can start to take it easy: spend time working on our personal development or catching up with our team. We call this #CumaKafası (Friday mood).

And yes we are Agile! The world is constantly changing. And we cannot afford not to!

Our journey began by simplifying our organizational model and transforming into a more agile structure that now we use extensively, especially in our development processes.

Why is this role really critical to us?

Purpose of this role is to take part in maintaining stability, performance and security of product in accordance with business requirements, technical specifications, internal procedures and quality objectives,

- using state of the art technologies,
- performing reviews, collaborating with architects, designers, developers and operations
- working with agile methodologies,
- ensuring smooth and reliable operation of the product from development to production, in order to enhance Inhouse Billing Product of Vodafone Turkey to ensure positive user experience and highest service availability.

How will you spend your time at Vodafone?

- Responsible for design, maintain and improve infrastructure through configuration management tools and automation of Inhouse Billing Solution of Vodafone Turkey.
- Collaborate with development and operations teams to implement continuous integration and continuous deployment pipelines
- Monitor and troubleshoot production systems and applications
- Implement security best practices to protect sensitive information
- Collaborate with cross-functional teams to optimize and improve system performance
- Participate in on-call support rotations and provide support for production systems
- Making research and implementing new technologies to improve time to market, quality, flexibility and reusability
- Ensuring delivery of software modules, products and solutions with committed functionality, performance criteria, within committed timelines.
- Complying with information security policies, standards and procedures of Vodafone Turkey.

You are just the person we've been looking for, if you have:

- Bachelor's degree in computer science engineering, or related field
- 3+ years of experience. working in software development
- Strong understanding of Linux/Unix operating systems
- Basic knowledge on scripting languages (eg Bash, Python)

- Familiarity with containerization Technologies (Docker, Kubernetes)
- Experience with cloud platforms (eg., OpenShift, AWS)
- Understanding of version control systems (eg., Git)
- Experience with CI/CD tools (Preferred Jenkins)
- Familiarity with monitoring and logging tools (eg, ELK stack, Prometheus)
- Understanding of security requirements
- Understanding of networking concepts and protocols (IP networking, VPN, Firewall)
- Good Technical skills in Oracle Database, SQL, PL/SQL, •
- General experience with Microservice architectures
- Understanding of APIs, Web Services, SOAP, REST and similar technologies
- Agile software development methodologies,
- Experience in managing multiple projects and deadlines
- Strong business orientation with strategic and analytical skills
- Excellent problem solving and troubleshooting skills
- Strong interpersonal communication skills
- Strong presentation skills
- Self motivated: Motivated to do or achieve more because of one's own enthusiasm or interest, without needing pressure from others.
- Initiative: Doing things proactively, stepping up and taking action to improve current situations or address challenges and potential opportunities.
- Solutions Driven: Display sound judgment, considering the pros and cons of different options and situations to make informed and robust decisions.
- Working Together: Working as part of a team and not separately or competitively – together.
