Exciting Opportunity for a Director of Engineering

IMPORTANT! For this position, we are looking for candidates who are suitable to work in Istanbul for the first 6 months and then move to Dubai.

IMPORTANT! This position is open to a maximum of 10 years of work experience.

Director of Engineering is responsible for the technology strategy and innovation initiatives for a dynamic start-up developing products for the energy sector. They oversee the development and implementation of technology solutions to increase business growth and competitive advantage.

Key Qualifications:

Degree in Computer Science, Engineering, or a related technical field.

5+ years of experience in software development.

2+ years of experience in leading or management roles, or similar.

Proven experience in PostgreSQL and Amazon SNS/SQS.

Familiarity with Airflow and Terraform is a plus.

Strong grasp of current and emerging technologies and their application in business environments.

Excellent communication skills, with the ability to engage and influence stakeholders at all levels.

Ability to think analytically and solve problems efficiently.

Experience in managing and leading development teams.

Knowledge of best practices in IT governance and operations.

Commitment to staying informed on technology trends and developments.

Ability to drive innovation and inspire the technology team.

Role Responsibilities:

Lead a team of 4-5 developers, guiding technical direction and project execution.

Architect, design, and develop solutions using PostgreSQL and Amazon SNS/SQS.

Thrive in ambiguity, adapting to evolving requirements and providing clarity to the team.

Ensuring alignment of technology resources with company's short-term and long-term objectives.

Leading the technology team and overseeing research and development as well as technology initiatives.

Improving and optimising the company's software development process.

Conducting market research to keep abreast of emerging technologies that could benefit the company or pose a threat.

Establishing technology standards and practices and ensuring adherence.

Ensuring all technology practices adhere to regulatory standards.

Why apply for this position?

Opportunity to work with a talented team in a growth-oriented environment.

Competitive salary and benefits package.

Dynamic and inclusive company culture.

Opportunities for professional development and career progression.

The chance to be at the forefront of technological innovation within the industry.
