

Engineer - Instrumentation (Saudi Arabia).

[Apply Now](#)

Company: Eram Talent

Location: Ankara

Category: other-general

Eram Talent is currently seeking an experienced Instrumentation Engineer to join their team. Eram Talent is an independent talent acquisition consultancy that specializes in providing recruitment solutions for various industries including oil and gas, petroleum, infrastructure, energy, water, transportation, science and technology, and healthcare.

As an Instrumentation Engineer, you will be responsible for designing, developing, and maintaining instrumentation systems and solutions. You will play a critical role in optimizing the performance and efficiency of our clients' operations through the implementation of innovative instrumentation engineering strategies and products.

If selected, the work location would be **Saudi Arabia**.

Responsibilities

Designing and developing instrumentation systems for industrial applications

Conducting feasibility studies and technical evaluations for instrumentation projects

Creating technical documentation for instrumentation designs and solutions

Performing system integration and testing of instrumentation systems

Providing technical support and troubleshooting assistance for instrumentation-related issues

Ensuring compliance with relevant industry standards and regulations

Collaborating with cross-functional teams to meet project objectives and timelines

Requirements

Bachelor's degree in Electrical Engineering or a related field

Minimum of 10 years of experience in instrumentation engineering

Strong technical knowledge of instrumentation systems and products

Proficiency in AutoCAD or other engineering design software

Experience with PLC programming and control systems

Excellent analytical and problem-solving skills

Strong communication and interpersonal skills

Ability to work independently as well as in a team environment

Willingness to travel as required
