

Engineer - Mechanical (Saudi Arabia)

[Apply Now](#)

Company: Eram Talent

Location: İstanbul

Category: other-general

Eram Talent is seeking a highly motivated and skilled Mechanical Engineer to join a leading Oil and Energy company in Saudi Arabia. As part of this team, you will be responsible for analyzing, designing, and implementing mechanical systems that are essential to the production, processing, and transportation of oil and gas. This position offers a unique opportunity to contribute to the success of a major player in the energy industry in the Saudi Arabian market.

If selected, the job location would be **Saudi Arabia**.

Responsibilities

Develop, design, and optimize mechanical systems that meet industry standards and project requirements.

Conduct feasibility studies and cost analyses to determine project feasibility and ensure sound investment.

Plan and execute all necessary project tasks, including budgeting, scheduling, and procurement.

Collaborate with cross-functional teams to ensure proper alignment and successful project delivery.

Document all project activities and maintain records of design performance, requirements, and standards

Troubleshoot and problem-solve mechanical issues during project execution.

Regularly report project progress and challenges to senior management and stakeholders.

Requirements

Bachelor's degree in Mechanical Engineering or a related field (Master's preferred)

Total of 8+ Years of experience in the Oil & Gas Industry.

Strong knowledge of relevant Industry Standards and Engineering Practices.

Demonstrable experience in engineering design, simulation, and analysis tools (Solidworks, ANSYS, etc.)

Exceptional problem-solving, critical thinking, and analytical skills.

Strong communication, collaboration, and interpersonal skills.

Ability to work under pressure and meet tight deadlines.

Willingness and ability to travel to various project locations, as needed.
