

## Engineer, Process

Apply Now

Company: TPI Composites

Location: İzmir

Category: other-general

TPI is the largest .-based independent manufacturer of composite wind blades for the high-growth wind energy market supporting global wind turbine manufacturers. TPI operates composite products manufacturing facilities in North America, Europe and Asia.

Our products excel where high strength, light weight and durability are required. TPI has over five decades of innovation and expertise in manufacturing large-scale composite structures of highest quality at a competitive total delivered cost to our customers. Our advanced composites manufacturing technology allows us to build near aerospace grade parts at industrial prices.

We are looking for enthusiastic and talented engineers to join us as as **“Process Engineer”** within **Process Engineering Department** . The role is based in **Menemen, İzmir**.

### What will be decisive:

. degree in Mechanical, Chemical Engineer relevant required,

Minimum 2 years of work experience, preferable in composites manufacturing,

Ability to read/understand technical drawings, global standards (ISO, ASTM ,

Proficient with AutoCAD 2D, 3D CAD skill is a plus,

Experience with statistical process control and data analyses (minitab, advanced excel),

Proficient in Office Suite (Word, Excel, PowerPoint, Publisher),

Ability to perform/use RCCA, problem solving tools (5 why, 8D, ishikawa, DMAIC, ,

Preferably has Six Sigma Green Belt,

Ability to maintain safe work environment,

Team player, strong communicator,

Ability to work by shift, flexible in working hours,

Fluent reading, writing, and speaking in English.

### **What will be your contributions:**

Develop and implement optimal, cost-effective manufacturing processes and methods in accordance with product specifications and quality standards,

Recommend and implement improvements to production processes, methods and controls,

Coordinate manufacturing implementation activities for new or revised products,

Ensure the customer design specification is met through our manufacturing processes.
