## EY Türkiye - Climate Policies Senior Consultant

[Apply Now](#)

Company: EY

Location: Ankara

Category: other-general

EY is a global leader in Assurance, Tax, Consulting and SaT (Strategy and Transactions) services.

The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all our stakeholders. In so doing, we play a critical role in building a better working world for our people, clients, and communities.

Our people, in more than 150 countries, are united by our shared values, which inspire our people worldwide and guide them to do the right thing, and our commitment to quality, embedded in who we are and everything we do. Our offices around the world use the same methodology and are linked through an integrated technology platform to enable instantaneous communication and collaboration among team members, regardless of location. As a member of EY Global, in Turkey we operate in 6 offices located in İstanbul, Ankara, Bursa, İzmir and Adana, with more than 1800 people for 30 years.

### **The Opportunity**

Our Government and Public Sector (GPS) community, consisting of 16,900 diverse individuals, is a network of highly skilled professionals dedicated to serving our clients by bringing best-in-class international experience and insight combined with local knowledge to solve the most critical problems facing national, regional and municipal level government institutions in more than 125 countries. Our cross-border, multidisciplinary team is connected, responsive and insightful to address the evolving needs of governments. Similar to our global practices, we continue to empower and grow our Government and

Public Sector (GPS) consulting business in Türkiye.

We are now seeking a full-time “ **Senior Consultant - Climate policies**” to join our GPS Business Consulting Department in **Ankara** to support the implementation of projects in the area of sustainability and climate policies and be part of EY’s Center for Climate Policy. Successful candidates will find opportunities to support government institutions against the challenges that the international and national sustainability and green agenda requires.

### **Job Description**

Lead work streams, formulate high-quality, insightful and sustainable solutions

Ensure work efficiency during all engagements by continuously improving processes, utilizing methodologies, tools, and technologies

Conduct highly complex quantitative research and analytic studies at the climate policy domains to support evidence-based policy making engagements

Convey a good grasp of sustainable policy issues in the areas of green finance, circular economy, sustainable development, net-zero transition, etc.

Provide creative solutions to problems using experience to improve processes, business and operating models

Be responsible for parts of the final deliverables for clients

Liaise with various clients and stakeholders for potential and ongoing engagements

Contribute to the preparation and facilitation of workshops, presentations, and training at client premises and within the team

Contribute to a strong client relationship through effective management of interactions with client personnel

Maintaining close communication, collaboration and coordination with EY Center for Climate Policy

Supervise and coach junior professionals, help people enhance their contribution and develop their capabilities

### **Required Qualifications**

We are looking for senior candidates with the following qualifications;

At least 3 years of professional experience in management and strategy consulting studies conducted for public sector clients in the following fields: sectoral green transformation, green finance, circular economy, green and net-zero transition, climate policy drafting, smart cities and sustainable transformation and/or sustainable development

A relevant university degree, preferably in Economics, Industrial Engineering, Environmental Engineering, Urban Planning, and other Engineering departments or a similar discipline from a reputable university

A relevant master's / PhD degree is a plus

Specific experience in working with national and local government entities, municipalities, think tanks and/or academia

Knowledge and work experience in energy (renewable) and industry (iron and steel, cement, plastic, etc.) is an asset

Strong research and data analysis skills (both qualitative and quantitative)

Strong analytical and statistical skills

Specific experience in team management

Excellent written and verbal communication skills (both in English and in Turkish)

Excellent problem-solving and quantitative skills along with intellectual curiosity

Ability to multitask in a fast-paced, often changing environment

Strong work initiative by being self-motivated and working with deadlines

Strong client and relationship-building skills

Excellent MS Office skills

No travel restrictions inland or abroad
