[Apply Now](#)

Company: EY

Location: İstanbul

Category: other-general

EY is a global leader in Consulting, SaT (Strategy and Transactions), Tax and Assurance services.

The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all of our stakeholders. In so doing, we play a critical role in building a better working world for our people, for our clients and for our communities.

Our 395 000 people, in more than 150 countries, are united by our shared values, which inspire our people worldwide and guide them to do the right thing, and our commitment to quality, which is embedded in who we are and everything we do. Our offices around the world use the same methodology and are linked through an integrated technology platform to enable instantaneous communication and collaboration among team members, regardless of location. As a member of EY Global, in Turkey we operate in 6 offices located in Istanbul, Ankara, Bursa and Izmir, Adana with more than 2000 people for 30 years.

At EY, we are at the forefront of integrating AI and advanced analytics into our consulting services, driving transformational change across various industries. Our dedicated AI arm, , exemplifies our commitment to leading the AI revolution, providing cutting-edge solutions that redefine the boundaries of technology and business. We leverage the power of AI to unlock new possibilities, deliver insightful analysis, and create unparalleled value for

our clients.

We are seeking for a **SAP P2P (MM) Senior or Manager** in our **Technology Consulting** team with the following qualifications.

Your key responsibilities

As a Senior/Manager, you'll assist in developing applicable methodologies, tools, approaches, points of view, thought leadership and accelerators to differentiate EY in the ERP advisory market. These are shared with all EY market facing organizations to provide consistency and common platforms with which to go to market. A willingness to travel to meet client needs; travel is estimated to be 70-90%.

Project Management: Participated in large scale SAP client engagements. Consistently deliver quality client services, driving high-quality work products within the expected timeframes and on budget. Monitor progress, manage risk and ensure key stakeholders are kept informed about progress and expected outcomes. Manage expectations of client service delivery. Stay abreast of current business and industry trends relevant to the client's business. Should be a self-starter with excellent verbal and written communication skills. Should be comfortable interfacing with a client on a daily basis. This role requires daily interaction with the client at many levels.

Skills and attributes for success

Effectively team with diverse skills and backgrounds and foster an innovative and inclusive team-oriented work environment.

Strong written and verbal communication, presentation, client service and technical writing skills, coupled with a strong interest in further developing and integrating enterprise domain knowledge with technology skills.

Demonstrate characteristics of a forward thinker and self-starter that thrives on new challenges and adapts quickly to learning new knowledge.

Ability to lead a team of consulting professionals on multiple projects.

To qualify for the role you must have

A degree in computer science, accounting, finance, or a related field (MBA or Business Undergraduate degree preferred). SAP certification/s highly preferred.

A bachelor's degree and approximately 4-6 years of related work experience; or a master's degree and approximately 3-5 years of related work experience.

4-6 years of experience working with the SAP Materials Management (direct and indirect procurement and inventory management) as well as participation in full life cycle implementations (or equivalent experience) required. Familiarity with SAP Materials Management integration to IBP, QM, PM, SD, LE, TM, FI, CO, etc.

Experience executing a business blueprint and documenting business requirements that can be understood by a technical process team.

Development of project documentation, training materials, requirements gathering, and project management methodology experience required.

Experience with SAP reporting and HANA live a plus.

Experience with inventory management, direct and indirect procurement, account payable and enterprise asset management.
