FG Product Manager

[Apply Now](#)

Company: Huawei Telekomünikasyon Dış Ticaret Ltd

Location: Turkey

Category: other-general

Description

We are seeking an ambitious and driven Assistant Product Manager to join our dynamic and fast paced Petal Search team . As the core part of the HMS ecosystem, the Petal search is the global engine, based on the AI advantages of Huawei CBG technology. The global organization of the search product team provides a broad platform for improving individual capabilities and global view, communicating with global partners and local colleagues, working and learning with industry-leading search talent.

Responsibilities

Build and own a batch of compelling product features for Petal Search that aligns with team's Key Performance Indicators

Stay up-to-date on customer needs and market trends

Take charge of market insight, competitive product analysis, and end user requirement analysis and prioritization for search vertical products (such as Healthcare, Wellness, Entertainment, Sports, Education..etc), 2B Ecosystem Platform (Integration with vertical industry)

Take charge of search product roadmap management and third-party CP ecosystem cooperation to build competitive search products.

Take charge of product research, design new features and promote product iteration implementation in cross-product teams.

Monitor and analyze product performance, customer feedback and market trends to inform product decisions

Undertake user satisfaction KPIs, explore potential user requirements and product improvement direction through data analysis, and improve user satisfaction.

Facilitate communication throughout development process, fostering a collaborative environment and a strong team oriented culture.

Requirements

Recent graduate with a degree in Computer Science, Business or a related field

Organization, coordination, and teamwork capabilities, strong sense of responsibility.

Strong communication skills, and excellent spoken English.

Data analysis capabilities and data-driven decision making mindset

Familiar with Internet Technologies

Strong problem solving skills and willingness to learn

Ability to independently complete tasks such as PRD document preparation, requirement data definition and data dotting design.

Candidates with experience in Product Management is preferred.

In your resume, please include relevant coursework or projects and why you are interested in this role.
