

# Turkey Jobs Expertini®

## Field Application Engineer (m/f/d)

[Apply Now](#)

Company: RUTRONIK Electronics Worldwide

Location: Turkey

Category: other-general

### **Your role:**

Promotion of our broad electronic product portfolio

Identifying and positioning New Product Introductions through demand creation to achieve a higher proportion of Design-Ins

Securing Design Wins within our focus customer base

Delivering technical customer presentations to cultivate a strong reputation among clients

Collaborating with other departments, including the Field Sales team to support the technical strategy within the account, as well as Product Marketing for supplier engagement and commercial support

Providing design project updates, along with regular weekly/monthly reports

### **Your qualifications:**

You have successfully graduated with a degree in electrical engineering, industrial engineering or a related field, or can demonstrate a comparable career background in the electronic industry

Professional experience in the distribution sector would be advantageous

You have an active customer focus and you are an effective communicator

You have good knowledge of Microsoft Office

You have a good level of Turkish and English (C1)

Interested? Simply send us your application (online),  
specifying your salary expectations and period of notice.
