

Field Scientific Leader - Diagnostic Ankara

[Apply Now](#)

Company: AstraZeneca

Location: Ankara

Category: other-general

Here you'll have the opportunity to make a meaningful difference to patients' lives. With science at its heart, this is the place where breakthroughs born in the lab become transformative medicines – for the world's most complex diseases. Answer unmet medical needs by pioneering the next wave of science, focusing on outcomes and shaping the patient ecosystem.

Work at the cutting-edge, where scientific innovations and an entrepreneurial spirit are the norm.

Essential Requirements

University degree from Medical Faculty

Knowledge of customer segments and market dynamics

Demonstrated expertise in discussing scientific content and context to multiple audiences

Project management ability

Excellent oral and written communication and interpersonal skills

Strong leadership capabilities

Good at teamwork

Good command of written and spoken English

Excellent command of written and spoken Turkish

No restrictions to travel frequently and must have a valid driving license

Located in Ankara

Main Duties and Responsibilities

Collaborate with internal AZ teams and external stakeholders for impactful solutions.

Share clinical trial and treatment trends info with healthcare professionals.

Train AstraZeneca's internal stakeholders on scientific aspects of molecules or disease areas.

Support Sales Force training on diseases and treatments as a technical resource.

Collaborate with Key External Experts (KEEs) on study proposals and publications.

Engage in local/global clinical studies, coordinating with Clinical Research Operations.

Share insights from peer interactions and scientific meetings for communication plans.

Prioritize engagements with healthcare institutions to enhance patient outcomes.

Foster a 360 view of healthcare ecosystems

Identify and engage with medical societies, hospitals, payers, and Key External Experts.

Plan and execute field activities with a focus on scientific content and discussions.

Expand outreach to a broader spectrum of Key External Experts for enhanced engagement.

Concentrate efforts on healthcare institutions and Multi-Disciplinary Teams for holistic patient care.

Organize scientific events such as doctor group activities, symposia, and advisory boards.

Deliver informative lectures at scientific events aligned with the field medical communication strategy.

Why AstraZeneca?

Ultimately, our aim is to find solutions that prevent, treat and even cure some of the world's most complex diseases. Whether that's by shaping the patient ecosystem and focusing on

outcomes, or by progressing potential medicines and accelerating their launch.

The shared creativity through both internal and external collaboration unlocks challenges and brings new solutions.

With our ground-breaking pipeline comes a bright future – exciting opportunities and varied work. We're on an exciting journey to pioneer the future of healthcare.

Make a more meaningful impact to patients' lives around the globe.

Are you already imagining yourself joining our team? Good, because we can't wait to hear from you.
