Turkey Jobs Expertini®

Infrastructure Engineer (OpenShift / Kubernetes)

Apply Now

Company: Siemens Sanayi ve Ticaret Anonim Sirketi

Location: İstanbul

Category: other-general

We are the catalyst for the industrial world's digital transformation.
For more than 35 years, ground breaking technologies and business models engineered and developed by Siemens Turkey R&D department contributes to the global success of Siemens
Our R&D activities focused on the fields of electrification, automation and digitalization, provides end-to-end support to our global customers on their unique digital transformation journey.
We aim to increase our strength on solution and product development with world class SW development experts, with the vision to be the digitalization partner for our global customers.
We need game changers like you, to bring the next level of smart manufacturing and infrastructure from mere concept to reality, develop tomorrow's smart cities, and address the most critical digitalization challenges across a comprehensive range of industries.
What part will you play?
Operations, maintenance, documentation, and further development of a Openshift 4 based platform

Customer communication on support tickets - onboarding/offboarding/migration/sizing and general platform support

Small infrastructure tasks (example: a container-based wiki)

What you need to make real what matters.

Minimum of three (3+) years of working experience

Very strong general Linux knowhow especially RHEL

Profound Openshift 4 / Kubernetes knowhow **especially on the Project/Namespace level**

Advanced container knowhow (especially how to build and debug docker images)

Experience in installing, configuring and running Openshift/Kubernetes Operators

Experience with Postgres and its operator distributions (especially CrunchyDB)

Gitlab user level skills

Fluency in English (German nice to have)

Ability to work on complex issues autonomously and team based.

Strong problem solver

Good inter department and customer communication skills.

#LI-HYBRID
