Logistics Executive

Apply Now

Company: Vodafone

Location: Ankara

Category: other-general

Your dream job does exist.

Discover it at Vodafone!

We are looking for a **Logistics Executive**.

First things first: Our Brand.

Here are the key behaviours that help us bring our Spirit and Purpose to life:

- Earn customer loyalty: Small things do matter.
- Experiment, learn fast: Just take the chance.
- Create the future: That's possible.
- Get it done, together: It's up to each of us to make it happen.

Here, everyone can feel free to be themselves and express their ideas.

We are proud to have the most flexible #hybrid way of working in Turkey.

Together with your team, you can decide which days to come to the office depending on your work requirements.

Another favorite: Meeting-free afternoons! Every Friday, arrival of the noon means we can start to take it easy: spend time working on our personal development or catching up with our team. We call this #CumaKafası (Friday mood :)).

And yes we are Agile! The world is constantly changing. And we cannot afford not to!

Our journey began by simplifying our organizational model and transforming into a more agile structure that now we use extensively, especially in our development processes.

Why is this role really critical to us?

The purpose of this role is to manage strategical and tactical logistics operations ensuring that supply chain management is fully integrated with business strategies.

The Logistics Executive organizes the storage and distribution of goods ensuring that the right products are delivered to the right location on time and at a good cost and helps to develop and implement best fit inventory management processes. Handling and storing of materials through activities such as loading, unloading and moving articles in a warehouse or storage room, tracking products transported on to Stores, Wholesalers and individual customers. Working according to orders to inspect materials and producing accurate documentation for the handling of items.

How will you spend your time at Vodafone?

- Requires a good understanding of procedures around handling of goods, including onward distribution
- Provides guidance on logistics practices, to achieve value and align with other cross-functional requirements.
- Assists in the development and implementation of value adding inventory management practices, enabling managers to make data driven decisions around risk analysis across inventory, reduction of holding aged products in the wrong locations and improve returns and disposal processes.
- Supports overall governance of movement of goods, ensuring Logistics Partners comply with Vodafone standards and the quality of end-to-end demand management process for the local market / customers.
- Assists the achievement of Logistics Operational KPIs and the concept of zero inventory
- Uses judgement based on analysis of factual information and is expected to resolve problems by identifying and selecting solutions through the application of acquired technical experience.
- Typically reports to Logistics Manager.

Core KPIs

The Logistics Executive would be responsible for KPIs including:

- 3rd party Logistics Operations Management KPIs;
 - o Health and Safety KPIs
 - o On time and in full inbound & outbound to/from warehouses
 - o On time and in full return inbound to warehouses

- o On time and in full delivery to/from base stations
- o Stock /Inventory accuracy at warehouses
- o Returns handling KPIs
- o Claims management KPIs
- o Spare parts logistics KPIs
- Inventory KPIs;
- o Reuse of returns at warehouses
- o Inventory levels at warehouses and in transit to base stations
- o Inventory ageing at warehouses and in transit to base stations
- o Inventory accuracy at base stations

You are just the person we've been looking for, if you have:

- University graduate - preferably from Engineering faculty
- 8+ years of applicable work experience in Logistics operations management (warehousing, inbound outbound distribution and customs operations)
- Experience in vendor/3PL management. Leadership experience in blue colour workforce is preferred
- Excellence in internal and external stakeholder management and business partnering
- Fluent usage of English
- Lives in Ankara
- Able to deconstruct and analyse processes, producing effective outcomes via the creation of and use of visual representation of captured data. Able to communicate and present insights and efficiently using statistics and/or graphical representation. Make recommendations and enable decisions that can be directly linked to SCM and the wider business objectives.
- Challenge the existing systems and processes by using tangible reference points to propose / implement efficiency opportunities to drive simplicity, speed and improved user experience.
- Knowledge of principles and methods for moving goods by air, rail, sea, or road, including the relative costs and benefits.
- Knowledge on strategic purchasing, logistics drivers, negotiations with vendors. Knowledge on receiving and storing product effectively and improving by designing and development efficient movement and storage systems.

- Knowledge on managing inventory levels, naming stock, tracking material requests, reorder dates, forecasting, pricing, inventory costs, variants and organizing all aspects of inventory.
