

Turkey Jobs Expertini®

Long Term Intern - Game Development

[Apply Now](#)

Company: INFINIA

Location: Ankara

Category: other-general

INFINIA is a **human-centric design & innovation company** that designs and develops new technologies, products, and experiences across three main business divisions:

Experience Design: We bring digital and physical spaces together to maximize user/customer engagement. We design and develop custom exhibition products to create audiovisual and immersive experiences.

Products & Development: We provide on-the-shelf products in the marine, hospitality, advertisement, and IOT Sector

Technology: We design, develop, and manufacture cutting-edge technologies from IoT devices to satellite systems to solve customers' most challenging operational problems.

We invite you to explore the opportunities to be a part of a dynamic team that thrives on pushing the limits of what's possible to shape tomorrow.

Upon becoming a part of our team, you'll have the chance to collaborate with highly talented and seasoned professionals, engage in large-scale global projects that offer international expansion prospects, and utilize cutting-edge future technologies.

Responsibilities include but are not limited to

Develop game mechanics and in-game systems using Unreal Engine.

Perform performance and memory optimizations to enhance game efficiency.

Manage and integrate game code for cross-platform support.

Conduct in-game debugging, testing, and quality control processes.

Actively contribute to the development of innovative game concepts and features.

Ensure timely and quality delivery in line with project schedules and delivery processes.

Collaborate with other team members on joint projects in a coordinated manner.

Requirements

Familiarity with Unreal Engine for at least one year.

Proficiency in C++ and Unreal Blueprint scripting.

Strong understanding of object-oriented programming.

Hands-on experience with Git.

Ability to quickly learn and utilize third-party libraries.

Being a student in Computer Science or a similar discipline (e.g., Physics, Mathematics, Electrical Engineering, etc.).

Able to work minimum of 2 days per week.

Benefits

Best reasons to join INFINIA

If honesty, open communication, curiosity, and continuous learning matter to you, you should apply INFINIA. Besides the culture, here are a few reasons to apply;

Development Support Focus on your growth with different training programs.

Enrich Your Social Life Spice up your social life by choosing perks from the INSTORE App. Options include gym memberships, gift cards, workshops, venue tickets, and more.

Birthday Leave: Your birthday is special to us! Enjoy an extra day off to celebrate your birthday.

The future of technology and innovation is waiting for you to find out more information about INFINIA!
