[Apply Now](#)

Company: Software House

Location: Turkey

Category: other-general

At Software House (Permanent), in Portugal

Salary: €30.000 - €50.000

Expires at: 2027-06-18

Remote policy: Full remote

We are dynamic software house that excels in delivering cutting-edge applications and mobile solutions. With a passion for innovation, our expert team crafts robust software applications, responsive websites, and customized solutions that cater to your unique business needs. We thrive on transforming ideas into reality, empowering companies' digital presence and driving their success forward. We have a dynamic and collaborative work environment that fosters creativity and offers ample opportunities for professional development.

We are seeking a skilled and experienced Mid-Level Software Testing Engineer to join our dynamic team and contribute to our mission of delivering exceptional user experiences through rigorous testing and quality assurance. Position Overview: As a Mid-Level Software Testing Engineer, you will play a crucial role in ensuring the quality and reliability of our applications and mobile solutions. You will work closely with cross-functional teams, including developers, designers, and product managers, to design and execute comprehensive testing strategies, identify defects, and verify the functionality and performance of our software. This is an exciting opportunity to be part of a fast-paced startup environment and contribute to the success of our innovative products.

Responsibilities:

Collaborate with development and design teams to understand project requirements and create test plans and strategies.

Design, develop, and execute test cases and test scenarios for applications and mobile solutions.

Perform manual and automated testing to verify functionality, usability, performance, and security.

Identify, document, and track software defects using bug tracking tools.

Collaborate with developers to troubleshoot and resolve issues, ensuring timely and effective resolutions.

Conduct regression testing to ensure the stability and integrity of the software after changes or updates.

Work closely with product managers to ensure that user requirements are met and the software meets quality standards.

Stay up-to-date with industry best practices and emerging trends in software testing and quality assurance.

Contribute to the improvement of testing processes and methodologies.

Provide clear and concise reports on test results, defects, and overall software quality to stakeholders.

Collaborate with cross-functional teams to prioritize and address critical issues in a timely manner.

Main requirements

Bachelor's degree in Computer Science, Engineering, or a related field, or equivalent practical experience.

Minimum of 3 years of professional experience as a Software Testing Engineer, with a focus on apps and mobile testing.

Strong knowledge of software testing concepts, methodologies, and best practices.

Experience in designing and executing test cases, test scenarios, and test plans.

Proficiency in manual and automation testing techniques and tools.

Familiarity with mobile testing frameworks and tools (e.g., Appium, Selenium, Xcode, Android Studio).

Solid understanding of mobile platforms (iOS, Android) and their respective guidelines and standards.

Experience in testing native and hybrid apps.

Ability to analyze requirements, identify potential risks, and create effective test strategies.

Strong problem-solving skills and attention to detail.

Excellent communication and collaboration skills to work effectively in a team environment.

Ability to work independently with minimal supervision.

Benefits & Perks

Competitive salary and comprehensive benefits package.

Opportunity to work in a fast-growing startup environment with a talented and passionate team.

Professional growth and learning opportunities to enhance your skills and knowledge.

Flexibility in working hours and location.

A supportive and inclusive work environment that values creativity and innovation.

Join our team of dedicated professionals and contribute to the success of our innovative applications and mobile solutions.
