Packaging Technologist II

[Apply Now](#)

Company: Mondelēz International

Location: Gebze

Category: other-general

Description

Are You Ready to Make It Happen at Mondelēz International?

Join our Mission to Lead the Future of Snacking. Make It With Pride.

Working as part of a cross functional team, you deliver the RDQ activities required to complete Packaging Design and Packaging Deployment for Innovation/Growth projects and productivity projects across multiple geographies with an emphasis on delivering the desired consumer experience. You will closely work with European countries

How you will contribute

With the support and guidance of a manager, you will organize and execute projects in line with RDQ, marketing and manufacturing requirements, effectively communicating status and risks. You will plan and conduct activities to generate appropriate packaging information, using sampling and supplier management, and pilot plant and factory trials in accordance with good manufacturing practice and HACCP requirements. In this role, you will plan and conduct process development activities (e.g. packaging design and specifications, packaging scale up, commissioning etc.) and help with planning and the effective use of resources, including the use of external agencies. You will also create technical reports, which will require your skills in analysis and interpretation of results that will lead to conclusions and recommendations; create and maintain accurate packaging specifications; and create intellectual property to drive our competitive advantage.

What you will bring

A desire to drive your future and accelerate your career. You will bring experience and

knowledge in:

Working on teams and independently with the guidance of a manager

Prioritizing and managing activities

Identifying problems proactively and creating and implementing solutions independently

Applying fundamental technical understanding to interpret and analyze data to reach clear conclusions

Communicating effectively verbally and in writing, including technical writing

Putting the consumer at the heart of development activities

Technical curiosity and a collaborative mindset
