

Part-time Machine Learning Engineer

[Apply Now](#)

Company: Prometeia

Location: İstanbul

Category: other-general

Are you curious and ready to accept a new challenge in your career? Are you eager to join a dynamic company and bring innovation through your work and skills?

Prometeia offers you opportunities for growth and training in a Group with over 1000 professionals working for more than 500 clients in 20 countries around the world.

Among the European leaders in Enterprise Risk Management and Wealth & Asset Management solutions, Prometeia is looking for a part-time Machine Learning Engineer to join our dynamic team for a 6-month internship.

We are looking for candidates who are passionate about learning how the Machine Learning pipeline works and supporting the most critical pillars of the pipeline like annotating, validating, and testing. Candidates will be placed in Data Science and Artificial Intelligence (AI) team with an entrepreneurship soul and a focus on not only financial institutions' digitalization processes but also cross-sectoral real-world applications.

RESPONSIBILITIES:

Support Machine Learning model development activities (from feature engineering to model training and performance evaluation)

Perform analytical tasks like algorithm design, implementation, validation, and testing

Facilitate integration of the resulting system/software into an existing production environment

Perform literature research, prepare presentations at both technical and marketing level

Help training ML algorithms by doing annotations on the text, image, or tabular data

Prepare gazetteers for natural language processing algorithms

Willingness to multi-task, learn new technologies in a lean development environment

PREFERRED REQUIREMENTS:

Theoretical and practical knowledge of Machine Learning algorithms (Classification, Regression, Clustering, ...)

Experience in data manipulation, feature extraction/selection

Experience in building Machine Learning Pipelines from data collection to cleaning, model training/tuning, and performance evaluation.

Proficiency and hands-on experience in coding with Python and commonly used libraries such as NumPy, Pandas, scikit-learn, Matplotlib, Seaborn, etc.

Experience in relational SQL and NoSQL (Redis, Mongo DB, Cassandra) databases

Experience in Linux/Unix operating systems

SOFT SKILLS:

Skill to effectively present, describe and report on complex ideas and projects

Good communication and team-working attitude

Demonstrated ability to manage time effectively and adhere to strict deadlines in a dynamic work environment

WHAT WE OFFER:

Selected candidates will be offered a part-time position to work in a stimulating and dynamic environment, strongly oriented towards the enhancement of human resources according to the results achieved.

LOCATION:

Istanbul

OTHER

Applicants can send their updated CV in English.

The eligible candidates will receive a preliminary call by the Corporate HR Representatives (Italy-based).

Prometeia is committed to employing a diverse workforce. Our company promotes and respects equal opportunities.
