Company: Lostar

Location: Istanbul

Category: other-general

Job Description

We are seeking a skilled and experienced Penetration Tester to join our cybersecurity team. The successful candidate will be responsible for conducting comprehensive security assessments, including web application penetration testing, internal penetration testing, Active Directory testing, MITRE ATT&CK simulations, and vulnerability scanning. This role requires a deep understanding of network concepts and protocols, network security methodologies, and the latest Red Team tactics and strategies.

Location: Preferably based in Istanbul.

Flexibility: Primarily remote work, with the requirement to attend on-site as needed.

Qualifications

At least 2 years of experience in penetration testing.

Proficiency in internal penetration testing and exploit development.

Strong understanding of network concepts and protocols, along with network security methodologies.

Up-to-date knowledge and experience in Red Team activities.

Minimum requirement of graduation from a higher education institution (yüksek okul).

OSCP,OSEP,GPEN (Holding any of these certifications will be considered a significant asset and indicative of a candidate's practical skills and dedication to the field of cybersecurity.).
