PostgreSQL DBA

[Apply Now](#)

Company: Adjust

Location: İstanbul

Category: other-general

Adjust, an AppLovin (NASDAQ: APP) company, is trusted by marketers around the world to measure and grow their apps across platforms, from mobile to CTV and beyond. Adjust works with companies at every stage of the app marketing journey, from fast-growing digital brands to brick-and-mortar companies launching their first apps. Adjust's powerful measurement and analytics suite provides visibility, insights and essential tools that drive better results.

Our global team is composed of team members with life experiences, backgrounds, and perspectives that mirror our customers around the world. We seek outstanding candidates who demonstrate a commitment to diversity, equity, and inclusion through continuous learning and skill-building. We aim to support each other to ensure equitable and inclusive experiences, furthering our goal to create a culture of belonging that values the contributions of all team members.

We're proud to have received several awards in Summer 2022, including G2's Easiest Setup, Easiest Admin, Leader, and Easiest To Do Business With. Our CPO was also honored with a Top Women in Media Award, and we were named the Best Overall Mobile Marketing Solution of 2022. These accolades are a testament to the excellence and innovation of our award-winning company.

Get to know Engineering /The Department

Our Engineering department is the dynamic powerhouse behind Adjust's cutting-edge technologies. Through seamless collaboration with our Product and Support teams, we transform concepts into tangible, customer-centric solutions with a strong sense of

ownership and an unwavering commitment to excellence. Get ready to witness the magic of our Engineering Department.

Make an Impact/ The role:

As a **PostgreSQL DBA** (mostly PostgreSQL, we also use Aerospike and Spark/Kafka) you will be part of our Database Team and you will ensure that existing database applications continue to work at any scale from Terabytes to Petabytes. You will be involved in every aspect of the platform such as extensions, improvements, PostgreSQL, optimizations and analytics reporting software.

Empower Your Potential/ Responsibilities:

Improve and optimize our architecture and suggest improvements to current processes and structures

Maintain and expand our Analytics Platform (written in Go) and our database management tools

Troubleshoot PostgreSQL issues and propose/implement fixes

Advice our development teams on database best practices

PostgreSQL setup and tuning on a very high transaction rate and distributed environment

PostgreSQL custom extensions building and maintaining (C, SQL, PL/pgsql)

Maintain and develop data pipelines (C, SQL, PL/pgsql)

General maintenance tasks, operation monitoring and incident management

Queries writing and optimizing

Bring Your Knowledge/Experience & Qualifications:

Proven experience as Administrator of heavily-loaded PostgreSQL databases

Knowledge or willingness to learn Go

Knowledge of any automation tools (we use Ansible)

Solid research skills

Experience with distributed environments

Enhance Your Experience / Perks & Benefits:

Opportunity to make an impact on the ad-tech industry working for a forward-thinking leader in the space

International, diverse teams with a strong focus on transparency, feedback and fun

Education opportunities for ongoing professional development & continuous learning

Company onboarding program where you'll learn the ins-and-outs of our product with your fellow newbies

Private health insurance

Wellbeing support with qualified therapists

Monthly perk stipend to choose the perks that matter most to you
