Process Engineer

Apply Now

Company: Knauf

Location: Başiskele

Category: other-general

Knauf stands for opportunityWe know that opportunity looks different to each person, and we are proud that we see opportunity in everyone. This exciting role within the Production Team could be the perfect next opportunity for you to build a unique career, in a values-led culture with a clear purpose of making tomorrow a home for all of us.

We are a global manufacturer of construction materials and within our Group of **41,500 team members** in **90 countries** across **300 sites** provide a huge opportunity for anyone with ambition and energy. We value everyone's contribution equally and we ask that you bring your whole self to work, to enrich the business further, as together we achieve more in a safe and inclusive environment.

Knauf Turkey is proud to be part of the Knauf Group. We have a 91-year heritage in (E.G., GYPSUM) manufacturing and have big plans for the future. Our global reach in 90 countries continues to grow and we are looking for passionate, ambitious people to help us achieve our goals. We are all led by the same core values and believe in the powerful potential of large companies to have a positive impact on the world. **We are now looking for another team mate to join us in İzmit Plant as Process Engineer.**

Can you say 'yes'?

Do you treat your colleagues with respect?

Do you always have the customer in mind?

Do you act with future generations in mind?

Do you like to seek out opportunities to grow and develop?

Do you have a proven track record of delivering results?

What you'll be doing:

- Responsible for the production and process improvements of gypsum plaster and gypsum board,
- Executing line and performance measurements, which lead to diagnose the technical problems of the plant,
- Investigation of improvement potentials on process, production rate and quality,
- Analyzing the periodical laboratory and production reports,
- Evaluation of customer claims due to production together with local responsible,
- Implementing new products and processes together with Region Team,
- Reporting of all production facilities' activities,
- Creation of production check-list tables and cooperation with production responsible,
- Evaluation of plant's needs and preparation of investment reports with feasibility studies,
- Close cooperation with Region Team and perform project-based studies together,
- Continuously analysis and optimization of production processes.

What we'd love for you to have:

We are interested in you as a person: your attitude, behaviors and values. As long as you have the willingness to learn anything you need for the role that you don't already have, we'd love to speak to you. If you have experience in the following areas – this is an added advantage:

- University degree in Chemical Engineering or Industrial Engineering,
- Minimum 3 years experience in a similar position,
- Working experience in an international environment,
- Proficiency in Microsoft Office Applications,
- Excellent command of English both written and spoken,
- Position based in Izmit.

What happens next?

We appreciate that your time is precious and applying for a new job can be a lengthy process - so we have committed to replying to your application within 5 working days.
