

Process Engineer (Saudi Arabia)

[Apply Now](#)

Company: Eram Talent

Location: Ankara

Category: other-general

Eram Talent, a leading independent talent acquisition company, is seeking a skilled Process Engineer to join our team in the oil and gas industry. As a Process Engineer, you will be responsible for designing, implementing, and optimizing process solutions for our clients in the oil and gas sector. You will work closely with a team of experienced engineers and consultants to deliver innovative solutions that meet the specific requirements of our clients. If selected, the work location would be **Saudi Arabia**.

Responsibilities

Design and develop process solutions for oil and gas production, refining, and distribution.

Optimize existing processes to enhance efficiency and cost-effectiveness.

Collaborate with project teams to ensure successful implementation of new processes.

Perform process simulations and models to evaluate performance and identify areas for improvement.

Develop and maintain technical documentation, including process flow diagrams, P&IDs, and operating procedures.

Participate in HAZOP studies and other safety assessments to identify and mitigate process risks.

Provide technical support to operations teams and troubleshoot process-related issues.

Stay updated with industry trends and advancements in process engineering.

Requirements

Bachelor's degree in Chemical Engineering or a related field.

Minimum 8+ years of experience in process engineering, preferably in the oil and gas industry.

Strong knowledge of process simulation software and tools.

Familiarity with relevant industry codes and standards.

Experience with HAZOP, HYSIS, and flarenet software.

Excellent problem-solving and analytical skills.

Strong communication and interpersonal skills.

Ability to work independently and collaboratively with cross-functional teams.
