

## Process Engineer - (Saudi Arabia)

[Apply Now](#)

Company: Eram Talent

Location: İstanbul

Category: other-general

Eram Talent, a leading independent talent acquisition company, is seeking a skilled Process Engineer to join our team in Saudi Arabia. As a Process Engineer, you will be responsible for designing, implementing, and optimizing process solutions for our clients in various industries. You will collaborate with a team of experienced engineers and consultants to deliver innovative solutions that meet the specific requirements and objectives of our clients.

### Responsibilities

Design and develop process solutions for various industries, including oil and gas, petrochemicals, and manufacturing.

Consult with clients to understand their needs and provide technical recommendations for process improvements and optimization.

Create and analyze process flow diagrams, P&IDs, and other technical documentation.

Use simulation software and other tools to model and evaluate process performance.

Implement process modifications and improvements to enhance efficiency, productivity, and safety.

Perform risk assessments, including HAZOP studies, to identify and mitigate potential hazards.

Collaborate with cross-functional teams, including operations, maintenance, and project management, to ensure successful implementation of process solutions.

Maintain up-to-date knowledge of industry trends, regulations, and advancements in process engineering.

## Requirements

Bachelor's degree in Chemical Engineering or a related field.

Minimum 7+ years of experience in process engineering role.

Oil and gas experience is essential.

Proficiency in process simulation software, such as Aspen Plus or HYSYS.

Familiarity with relevant industry codes and standards.

Strong analytical and problem-solving skills.

Excellent communication and interpersonal skills.

Ability to work independently and collaboratively with cross-functional teams.

Prior experience in the oil and gas, petrochemical, or manufacturing industries is preferred.

Experience with HAZOP and other process safety methodologies is a plus.
