

Production and Material Planning Engineer

[Apply Now](#)

Company: Corning

Location: Gebze

Category: other-general

Requisition Number: 62781

Corning is vital to progress – in the industries we help shape and in the world we share.

We invent life-changing technologies using materials science. Our scientific and manufacturing expertise, boundless curiosity, and commitment to purposeful invention place us at the center of the way the world interacts, works, learns, and lives.

Our sustained investment in research, development, and invention means we're always ready to solve the toughest challenges alongside our customers.

Our Optical Communications segment has recently evolved from being a manufacturer of optical fiber and cable, hardware and equipment to being a comprehensive provider of industry-leading optical solutions across the broader communications industry. This segment is classified into two main product groupings – carrier network and enterprise network.

The carrier network product group consists primarily of products and solutions for optical-based communications infrastructure for services such as video, data and voice communications. The enterprise network product group consists primarily of optical-based communication networks sold to businesses, governments and individuals for their own use.

Job Description

The Production and Material Planning Engineer plays a critical role in ensuring the efficient operation of the production process by overseeing production schedules,

coordinating materials procurement, and optimizing inventory levels. This position involves meticulous planning, effective communication, and a keen understanding of production workflows and material requirements.

Key Responsibilities :

As Production Planning;

Develop and maintain production schedules in line with customer demand

Optimize resource utilization and minimize lead times

Collaborate with production teams closely to ensure smooth execution of production plans, address any production issues or bottlenecks

Planning & reporting the master production schedule according to the capacity constraints and line loading and customer order dating.

Creation of the production orders in SAP, APO

Monitoring the production and making the revisions in the plan when necessary.

Preparing shipping plan of the week

Confirming customer orders based on plant load

Preparing shipping plan of the week

Preparing estimated sales report.

Work closely with cross-functional teams including Procurement (GSM) ,Sales , Regional Engineering and Customer Service to support overall business objectives and ensure alignment across departments.

As Material Planning;

Ensure material availability for production continuity in line with customer expectations

Forecast material requirements based on sales forecasts and historical data and active production plans .

Coordinate and follow with vendors to ensure timely delivery of materials .

Monitor inventory levels and implement strategies to minimize excess inventory while preventing stockouts. Conduct regular inventory analysis to identify areas for improvement.

Hardware orders planning , SAP alignment , order confirmation , PO follow up .

Ensure data accuracy in SAP , stock corrections, Zman movements.

PO preparation , sending to vendor and follow up of confirmations.

Digging consumption failures & collaboration with Engineering for right BOM calculations

As General;

Being a member of local and regional projects.

KPI's target support & follow up

Participating in the inventory counting activities (during the year & year-end counting).

Qualifications

University degree from engineering (preferably from Industrial Engineering)

Work experience in manufacturing companies will be an asset

SAP MM & PP module knowledge is an asset

MS Office Applications (especially advanced Excel , Macro) knowledge is necessary

Advanced level of written and spoken English is a must

Strong planning, organization, problem analysis, decision making and communication skills.

Analytical and open minded, pro-active, team player

No military obligation for male candidates

Residence in Kocaeli and Anatolian side of Istanbul is preferred
