Description

GROWING WHAT MATTERS STARTS WITH YOU

Corteva Agriscience™, the world's first dedicated agriculture start-up, serves to enrich the lives of those who produce and those who consume, ensuring progress for generations to come. Our employees fulfill this purpose everyday by building/participating in an inclusive culture where we encourage each other to stay curious, think differently, act boldly and do what's right for our customers, our co-workers, our partners and our planet. With over 20,000 team members from 130 countries, innovating in 140 world class R&D facilities, we have the resources, leadership heritage and partner ecosystem to make a meaningful impact now and into the future.

#GrowWhatMatters

You Will Be Part of Growing Team

Your challenge:

Mixing, proper operation and processing of treatment according to the schedule established by the plant manager and the instructions of the production supervisor.

Professional operation and maintenance of the machine, repair if necessary

Cleaning of processing tanks as well as machinery and equipment on the processing line.

Complete cleaning and flushing of the system.

Knowing and adhering to plant quality objectives and expectations.

To follow the qualitative and quantitative targets set by Corteva Biologicals in all areas of work and to meet these expectations.

Taking responsibility for keeping the workforce under control in terms of performance, work quality and safety training.

Knowledge of and adherence to site quality objectives and expectations.

Immediate reporting of nonconformities detected by the quality management system to the production supervisor.

Comply with company's safety and fire protection regulations as well as the mandatory use of personal protective equipment during work. (It is mandatory to wear a helmet, protective glasses, safety gloves and safety shoes on the site.)

Key Stakeholders and Interactions:
