Project Manager

[Apply Now](#)

Company: Rapsodo

Location: İzmir

Category: other-general

Rapsodo Inc. is a sports technology and analytics company that uses computer vision and machine learning to help all athletes maximize their performance. Our proprietary technology applications range from helping golfers of all abilities, including PGA professionals, to optimize their launch conditions, to allowing MLB pitchers to increase the efficiency of their breaking balls. Current partners include all 30 MLB teams, MLB, USA Baseball, Golf Digest, PGA of America, and over 1000 NCAA athletic departments.

As Rapsodo continues to grow and expand our business internationally, we are looking for a hands-on, driven, and empathetic Software Project Manager with a passion for collaborating and making a difference to join our team.

Key Responsibilities:

Maintaining and raising our engineering standards

Improving the time to market

Driving the adoption of new technologies

Be in a key position to lead the organization through rapid evolution

Manage engineering development projects

Create a Master schedule with the stakeholders and drive it

Drive team iterations execution and facilitates sprint releases

Manage project priorities, conflicts, challenges, and dynamic business requirements to keep operations running at a high performance

Communicating seamlessly with management and stakeholders

Working with the team leads to resolving problems and project roadblocks

Conduct post-mortem and root cause analysis to help teams improve their practices relentlessly to ensure maximum productivity

Provide guidance and support to product owners with intra-team dynamics with respect to priorities and scope

Monitor and report to management on the progress of all project activities, including significant milestones, and/or any conditions that could affect project cost or schedule

Requirements

BSc in Computer Science/Engineering or related field

3+ years of experience in Project and/or Product Management

The ability to operate in a dynamic environment

Experience with project management and collaboration tools (Jira, Confluence, etc.)

Knowledge of UI/UX design and flows, APIs, Web and Mobile software development

The ability to communicate technical information clearly and succinctly to both technical and non-technical team

Good understanding of Software & System Design, Platform Architecture and experience in complete Product Life Cycle development

Highly self-motivated, a team-player and ready to make an impact

Good time management, problem-solving and analytical skills

Strong organisational skills with excellent influencing and stakeholder management skills

Excellent English verbal and written communication skills

If you think you have what it takes and look forward to working independently as well as contributing to an innovative, passionate and driven environment, please send in your application.
