Job description

Ekomak Product Company, İstanbul Turkey, has a vacancy for a Sourcing (Purchasing) Engineer for Compressor components ranging from 2.2 kw to kw.

In this job you are responsible for the purchase of components for the industrial air compressors and driers that meet the requirements in terms of quality, price and delivery performance.

You manage the suppliers market for these components in an active way, meaning you are responsible for:

Exploring for new suppliers, sourcing opportunities locally and internationally

Identification of product and/or process optimization leading to the definition and implementation of CC7 cost reduction projects

Challenging and optimization of product specification in close cooperation with our engineering team

The supplier selection process incl. price analyses and price negotiations

Optimization of supply chain process

Follow-up of quality performance (together with the SQA engineer) and delivery performance.

Monitor and support inventory management activities, together with Planning and Production

team.

Logistics flow for local and import components.

2 to 4 years purchasing experience in global company.

Good negotiation skills

Experience in a technical function or production environment is an asset.

Preferred responsible commodity: fabrication parts, compressor components, OEM parts

Absence of domestic and international travel barriers

Good command of Turkish and English

Knowledge

You are a Mechanical, Electrical or Industrial engineer or equal through experience.

You have a profound knowledge of English. Other languages are a plus.

Personality requirements

Results focus: you commit to targets and goals and stand firm in the implementation.

Analyse and use sound judgement: you look into problems to identify root causes by applying facts, numbers and sound logic.

Build relationship: you build harmony and establish good relationships with suppliers and colleagues.

Good team player and communicator, self starter

Country and city description

Position will be located in Istanbul Asian side
