ABOUT UNILEVER

With billion people in over 190 countries using our products every day, Unilever is a business that makes a real impact on the world. Work on brands that are loved and improve the lives of our consumers and the communities around us. We are driven by our purpose: to make sustainable living commonplace, and it is our belief that doing business the right way drives superior performance. At the heart of what we do is our people – we believe that when our people work with purpose, we will create a better business and a better world.

At Unilever, your career will be a unique journey, grounded in our inclusive, collaborative, and flexible working environment. We don't believe in the 'one size fits all' approach and instead we will equip you with the tools you need to shape your own future.

JOB PURPOSE

Unilever is the place where you can bring your purpose to life with the work that you do – creating a better business and a better world. If you are keen to develop quality management skills; then this role is just for you!

WHAT WILL YOUR MAIN RESPONSIBILITIES BE

Sustain site quality management system that addresses the risk of non-conformance to product quality and product safety.

Responsible for practical implementation of the quality systems to ensure that all raw and packaging materials used, and all finished goods meet the required quality standards.

Support new product development, continuous improvement, and cost reduction activities by integrating quality tools in the process.

Improve suppliers' quality standards and participate in supplier visits and assessments.

Coordinate the product safety system at production like HACCP, GMP, calibration, traceability, hygiene and responsible for compliance with applicable regulatory and labelling requirements.

Support ISO 9001 & GMP implementations in relation to requirements of certification bodies.

Provide leadership for developing and directing Product Quality Assurance and Quality Improvement initiatives throughout the whole Supply Chain.

New products and new processes, cooperate with R&D and Engineering to make sure that all requirements are defined to ensure that production team can produce accordingly with the expected targets

Understand UMS logic and quality pillar steps.

Lead proper quality incident investigations and identify proper RCA.

Support the Quality Manager with the application of Quality Improvement tools across the sourcing unit.

Ensure Quality Maintenance tools are also utilized including analysis of Quality losses, quality maintenance and process point analysis.

WHAT YOU WILL NEED TO SUCCEED

Experiences & Qualifications

Minimum 1-3 years' experience in Quality or Supply Chain.

University degree in science or engineering fields, preferably food engineering.

Standard MS Office tools knowledge is a must.

Skills

Fluent in English & Turkish, both written and spoken

Digital native, analytical ability, and Statistical Process Control

Flexibility to adapt to different situations and ways of working

Problem solving and continuous improvement process

Leadership

You are energized by delivering fantastic results. You are an example to others – both your results and your resilience. You are constantly on the lookout for better ways to do things, engaging and collaborating with others along the way.

As an individual you are the one responsible for your own wellbeing and delivering high standards of work. You must also focus on the Consumer and what they need. You are humble and have your head up, looking around to interpret evidence and data smartly, spot issues and opportunities to make things better.

Critical SOL (Standards of Leadership) Behaviors

PASSION FOR HIGH PERFORMANCE: Takes personal responsibility and accountability for execution and results. Has an owner's mindset, using data and insight to make decisions. **PERSONAL MASTERY** Sets high standards for themselves. Actively builds own wellbeing and resilience. **CONSUMER LOVE :** Whatever their role, always looks for better ways to serve consumers. Invests time inside and outside to understand the needs of consumers. **PURPOSE & SERVICE** Has humility, understanding that leadership is service to others, inside and outside Unilever. **AGILITY :** Explores the world around them, continually learning and developing their skills.

Unilever embraces diversity and encourages applicants from all walks of life! This means giving full and fair consideration to all applicants and continuing development of all employees regardless of age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, marriage and civil partnership, and pregnancy and maternity.
