

SAP R2R Business Solution Architect

[Apply Now](#)

Company: Epam

Location: Turkey

Category: other-general

Description

At EPAM, we are in search of a dynamic **SAP R2R Business Solution Architect** to join our close-knit team. As a vital member of our organization, you will embark on a journey filled with technology-driven endeavors. EPAM is a renowned software engineering and IT consulting company that offers a remarkable opportunity for you to thrive in your career. If you're eager to gain extensive professional experience and expand your knowledge, we invite you to be a part of our team.

SEE YOURSELF IN THIS ROLE

Join us as an SAP R2R Business Solution Architect, if you desire to lead SAP pre-sale and implementation project governance, support customer solutions evaluation, refine R2R functional requirements, contribute to account planning, drive architecture governance, engage in the customer lifecycle, integrate R2R architecture domains, lead target architecture development, introduce innovative solutions, build strong customer relationships, stay informed on industry trends, and estimate work efforts. We're seeking a dynamic professional with a passion for SAP and a knack for delivering results. If you're ready to shape the future of SAP solutions and make an impact, we invite you to join our team and be a key player in our success.

What Youll Do

Run SAP pre-sale and implementation project governance, including business requirements

adjustment and development, fit-gap analysis, process and organizational change, troubleshooting, and root cause analysis

Support assessment of current customer solutions and potential areas of opportunity for SAP solution implementation

Support adjustment and development Record-to-Report (R2R) functional requirements and identification of related IT and business enablers from the initial point of view around customer initiatives to the final blueprint as a base for SAP implementation

Support in account planning activities to build the customer vision based on the solution scope

Drive architecture governance and methodologies to ensure consistency, communication, and cooperation across the R2R domain of architecture

Partake in the customer engagement lifecycle, and act as an integral member of the account engagement team

Define and integrate business, data, application, and the technical R2R architecture domain

Lead/support the target architecture & customer roadmap development and maintain alignment with SAP solutions

Proactively introduce innovation topics to solve specific customer needs

Build personal customer relationships and support EPAM sales team in detailed customer (solution) discovery discussions

Stay up to date about R2R improvement trends and the actual SAP portfolio of related solutions to formulate a customer roadmap

Estimate work efforts relating to the R2R process and related organizational design improvement, SAP technical configuration and development

What You Have

Expertise in identifying R2R-related business opportunities and solution gaps, as well as develop gap closure options

Capability to present SAP features and innovations filtered and focused on potential customer needs related to the R2R domain

Experience in R2R business architecture development with knowledge of related business processes, SAP solutions, and delivery methodology

Understanding of SAP S/4HANA (Finance, Controlling) functionality

High-level knowledge of budgeting and S&OP processes, cost allocation methods, fast closing approaches

Ability to align and effectively communicate with customer IT and business organizations

Nice to have

High-level understanding of the capabilities, functionality, and technologies of SAP S/4HANA (Logistics), CFin, PaPM, BPC, IBP, and related deployment options

Familiarity with GAAP and IFRS accounting processes and principles

Knowledge of the sales process cycle, account management, and go-to-market planning in IT service sales

Expertise in frameworks such as PMP, SAP Architectural and Design Thinking, and TOGAF

We Offer

Build a global career with international projects and clients

Stay ahead in your career by working with diverse and cutting-edge technologies

Remote & flexible working schedule

Competitive compensation in USD, regular assessments, and salary reviews

Private Health Insurance: Unlimited usage with 80% coverage

Meal Allowance

Extensive Annual Leave Policy including extra workday-annual leaves granted for the first year

Referral program: cash bonus for each successful recommendation

Relocation opportunities within our offices in 50+ countries

Amazing learning and development opportunities: Hard & soft skills internal training courses, mentoring programs, and free access to over 2, in-house courses and over 18, on LinkedIn learning
