## SAP Senior BI Backend Consultant - Ankara

[Apply Now](#)

Company: SEIDOR

Location: Ankara

Category: other-general

We have an opening in our Turkey office for a SAP BI Senior Consultant focusing on back-end SAP data & analytics technology. Candidates should have 4-6 years experience working with SAP HANA Modelling, SAP Data Services and SAP HANA SDI. The successful applicant will work partially remote from Turkey and sometimes on-site in Dubai, Qatar or other GCC countries for our prominent Middle East analytics projects.

### Requirements

4-6 years of solid development and implementation experience with SAP HANA Modelling, SAP Data Services and SAP HANA SDI

Expert level proficiency with PL/SQL or SQL and data modeling

Best practice ETL development knowledge and experience

In depth understanding of Business Intelligence architecture

Ability to design technical solutions from functional directions

Advanced English both written and spoken

Excellent communication & presentation skills

Understanding of best practice project management methodology

Experience mentoring junior employees

Analytical thinking and problem-solving abilities

Commitment to customer milestones, deadlines, and service levels

Ability to multi-task with a variety of customers and projects

Willingness to support team members with difficult projects or tight timelines

Autonomous thinking and proactive approach to investigating and discovering solutions

Ability to work independently (and occasionally alone in a customer environment) while proactively updating Project Manager on status, challenges and milestones

Commitment to open, transparent and frequent communication with customers and team

University Level Degree (preferred in Engineering or IT) / Masters in Information Technology or similar

Turkish nationality and passport or Turkish work permit/residence

Some business travel to Gulf countries will be required (with durations of 2 to 6 weeks at a time, depending on the project phase)

Interest and ability to work in a multicultural environment
