

# Turkey Jobs Expertini®

## Senior Backend Software Engineer

[Apply Now](#)

Company: Bayzat

Location: Turkey

Category: other-general

**Who we are:** Known as the Work Life Platform, Bayzat is one of the leading employee benefits SaaS platforms that is on a constant mission to **make a world class employee experience accessible to every company**. We are redefining the way work works for the better, making automated HR, Payroll, Employee Benefits and Insurance a possibility for all businesses. We are one of the fastest growing startups in the MENA region with just over 300 members from 35+ different nationalities. We were listed by Forbes as One of the most promising UAE-based startups and are backed by world leading VCs such as Mubadala and Point72 ventures. We are also one of the best-funded scale ups in the HRTech space across the region. We are a principle-led, meritocratic company that puts culture at the core of everything. As a Bayzat member, you will constantly be surrounded by high achieving individuals and teams who have a knack for solving complex problems and are relentlessly pursuing success in everything they do. Being part of such an environment will push you to constantly be the best version of yourself and capitalize on every opportunity to improve, whilst drawing inspiration from like-minded, hungry people from all around you. How we got to where we are today, and the reason we will continue to thrive, is by hiring best-in-class talent and building a culture that allows people to be the truest, most authentic and unpretentious versions of themselves. As a Senior Backend Software Engineer, you will be a part of our software development team to produce high-quality software and products. Our platform is the core of our offering and you will be responsible to make it better every day. You will have the opportunity to work with the latest technologies and are expected to continuously get out of your comfort zone to learn new things and get your hands dirty. More

importantly, we want you to take pride in the success of Bayzat, as it is under the ownership and responsibility of the entire team and that includes you!

**Some high-impact responsibilities you will be entrusted with:**

Develop features and backend functionality using Java, Kotlin, Spring, and AWS cloud solutions like Lambda

Maintain existing features, write functional and unit tests

Cooperate closely with other team members to deliver high-quality code

Deliver projects on time and at a high-quality level

Contribute ideas to product development

Constantly think about improving the Bayzat customer experience

Be part of our DevOps culture

**What you will need to have:**

5+ Years of Experience with Java or Kotlin

Experience in Spring Framework

Exposure to architectural patterns of RESTful web applications

Experience in fintech/payments/banking is preferred

Good communication skills, verbal and written

Self-starter, proactive in resolving issues and removing roadblocks

Adherence to the software engineering best practices

Willingness to learn and improve

**What's in it for you? Perks!** Bayzat is committed to creating an inclusive and collaborative working environment where everyone's background and ideas count. Our culture encourages members to be the best versions of themselves, while taking advantage of our perks: **Growth** : Fast track growth opportunities for high achieving members, with no rules around where, when, how, or how often. **Flexibility** : Remote and flexible/hybrid working schedules. **Inclusiveness**

From bi-weekly company-wide town halls/all-hands meetings, to regular huddles, OKR tribe meetings, celebratory dinner parties, and annual awards ceremonies held in the Metaverse, you'll be joining a truly inclusive and engaging workplace. **Share Ownership:** We make them shareholders! We open up rounds of ESOP twice to three times a year. And guess what, those who continue to perform and achieve great things are topped up, almost every round! **Kick-ass offices** We have offices in UAE, Turkey, Saudi, and India. One of our two Dubai-based offices is in the DIFC FinTech Hive, which is the first and largest financial technology accelerator in the Middle East, Africa and South Asia (MEASA) region.
