## Senior Cyber Security Engineer GetirFinance (FinTech)

[Apply Now](#)

Company: Gorillas

Location: İstanbul

Category: other-general

**Hi there!** Getir is the fastest on-demand mobile retailer in the world. Our main purpose is to make everyones life easier by giving them the ultimate convenience. Everyday we deliver thousands of goods from milk to diapers; from ice cream to detergent.

Were looking for a Senior Cyber Security Engineer for financial products the **GetirFinance**.

**GetirFinance** operates within the banking service model of Getir, having established a partnership with **Türkiye İş Bankası** in the financial vertical.

**Note:** Türkiye İş Bankası has decided to invest 50 million US dollars in GetirFinance. This investment will enable Türkiye İş Bankası to participate in supporting the banking services of GetirFinance and, simultaneously, to own a 20% stake in GetirFinance through its venture capital fund, of which it is the main investor. With this investment, GetirFinance is set to reach a valuation of million US dollars even before commencing its operations.

### What Youll Be Doing

Being a Key member of designing and developing Cyber Security Platforms, SOC processes and procedures,

Having a strong security analyst mindset and using best practice knowledge from an attackers point of view to detect, identify and respond to cyber events, known and unknown threats, security risks and vulnerabilities with effective management of response plans,

Monitor and manage relationships with security services and technology providers and provide strategic assessments on threat landscape, SOC technology trends and emerging security technologies

Designing, testing, and implementation of complex security solutions to meet security and regulatory requirements for on-premise cloud environments

### **What Youll Bring**

Bachelors degree in relevant fields

3 - 5+ years of IT security experience and relevant skills

Passionate for security technology and trends

Experienced in at least 3 of the following Security Products and Solutions;EDR, NDR, SOAR, SIEM, PAM, DLP, Database Auditing, DNS Security, URL Filter, IPS

Knowledge of Cloud infrastructure and cloud security solutions is an advantage.

Knowledge about global and local regulations, standards is an advantage.

We are a diversity and equal opportunity employer.FIND MORE ABOUT US :
