

## Senior Data Engineering Manager

[Apply Now](#)

Company: Epam

Location: Turkey

Category: other-general

### Description

Are you an experienced Leader in the Data & Analytics field, in addition to being an avid technologist who enjoys solving complex technical consulting challenges and driving Data & Analytics solutions? Are you hungry to thrive in an entrepreneurial environment working for one of the largest and most successful engineering businesses globally? We have a vacant position for you. This presents a wonderful opportunity to collaborate closely with our global and local Data & Analytics business, working in tandem with numerous clients to improve and address their technical data challenges.

**#LI-NA3**

### What Youll Do

Play a key role within the global and local Data & Analytics organization to advise clients with their overall Data Analytics strategy and implementations

Help clients get more out of their existing Data and Analytics projects by identifying the solutions and services based on their needs, constraints, and strategies

Act as Data Technology Consultant and/or Data Solution Architect, working with the delivery team in various sized complex programs

Help drive technology consulting, architecture engagements and transformation through execution phases and work closely with internal, client and third-party vendor mixed teams

Take an active role in aligning closely with EPAMs wider leadership teams to help shape the business/technology/strategic direction and footprint across multiple clients projects with varying degrees of maturity

Engage customer organizations at the executive / C-level, helping customers drive enterprise-wide agenda as well as external and internal partners to maximize growth within an account/client portfolio

Help drive Data Analytics initiatives whilst producing relevant deliverables whilst understanding the intersections between technology, customers, and business

Lead diverse teams of technical data & analytics professionals within EPAM

Stay abreast of current and emerging trends and challenges of the space/markets and geographies in which the clients operate, and how it affects clients business and initiatives

Work closely with project/program management to ensure successful delivery through an integrated delivery model

Support sales / pre-sales activities by assessing Data opportunities, responding to RFPs, creating proposals and presentations, establishing relationships with prospective clients, and helping to close deals

### **What You Have**

Bachelors or Masters degree in Computer Science, Engineering, or a related field

Fluency in English

Experience in a hands-on Data Technical Consultant, Data Solution Architect or Head of Data Analytics/Engineering roles

Extensive experience developing and growing client relationships and leading technical Data & Analytics teams delivering end-to-end solutions of different sizes and maturity

Experience / knowledge in Big Data, Hadoop, Spark, Kafka, BI, Data Warehousing, Data Science, Data Management, Data Storage, Data Visualization

Good Cloud experience / knowledge in at least one of the Cloud providers (AWS, Azure, GCP)

Solid experience in continuous delivery tools and technologies

Ability to clearly articulate the pros and cons of technology choices, recommendations, presenting analysis and solution design decisions to clients for complex transformation projects for the ultimate success of their business

Pre-sales experience whilst executing and leading on rapid conceptual designs, proof-of-concepts and client presentations

### **We Offer**

Build a global career with international projects and clients

Stay ahead in your career by working with diverse and cutting-edge technologies

Remote & flexible working schedule

Competitive compensation in USD and regular salary reviews

Private Health Insurance: Unlimited usage with 80% coverage

Meal Allowance

Extensive Annual Leave Policy including extra workday-annual leaves granted for the first year

Referral program: cash bonus for each successful recommendation

Relocation opportunities within our offices in 50+ countries

Amazing learning and development opportunities: Hard & soft skills internal training courses, mentoring programs, and free access to over 2, in-house courses and over 18, on LinkedIn learning
