## Senior DevOps Engineer

[Apply Now](#)

Company: Devexperts

Location: İstanbul

Category: other-general

### Company Description

Devexperts has been working for nearly two decades consulting and developing for the financial industry. We solve complex technological challenges facing the most well-respected financial institutions worldwide.

By becoming a part of Devexperts, you'll become a part of a company that fosters self-improvement and actively seeks out-of-the-box ideas. Our teams work together to create the next generation of financial software solutions. We welcome all candidates who believe, as we do, that innovation is grounded in education.

### Job Description

We are looking for a Senior DevOps Engineer to join the big demanding project to develop a trading platform for brokers.

Your goal will be to improve DevOps competencies in the project:

participate in architecture design (covering High Availability, Disaster Recovery, and the rest)

help developers evolve and tune CI pipelines

help the SRE team with delivery pipelines

You teammates:

Software Architect as a primary source of the tasks

SRE team that operates with the toolings you will maintain and create

Team Leads to interact with developers and QA

Project tech stack:

non-dockerised services written in Java

Kafka

PostgreSQL

delivery robots (Ansible, Python)

custom orchestrator for Java-based microservice system (Bash, Python)

CI/CD: Jira, Bitbucket, TeamCity, Nexus, SonarQube, and many Java integrations.

### **Qualifications**

What we expect from candidates:

willingness to understand how the big complex system works and readiness to evolve it

desire to reduce toil of kind (improve, simplify, automate, describe, teach)

strong self-organization skills (goal-oriented, ready to overcome status quo, autonomic)

strong team player skills (supportive, open for communication, default to yes)

proven automation experience with Ansible

solid experience with Python and Bash

Linux administration knowledge

experience with CI/CD pipelines creation & optimization

hands-on monitoring experience with Zabbix and ELK

Upper-intermediate English

Knowing these technologies will count as a plus:

Java

Docker

Kubernetes

Hashi Corp stack
