## Senior Python.ML Developer

[Apply Now](#)

Company: Epm

Location: Turkey

Category: other-general

### Description

We are looking for a **Senior Python Developer** with expertise in Machine Learning to join our remote team for an exciting project focused on developing high-quality software and solving complex engineering problems. As a Senior Python Developer, you will work closely with our customer's teams to create and maintain testing infrastructure for unit and automated testing. Your excellent communication skills will be essential in handling customer requests on time, ensuring the success of the project.

#LI-DNI

#LI-DNP

### Responsibilities

Participating in data engineering in projects with Deep Learning, Natural Language Processing, Data Capturing, Computer Vision, Information Retrieval within the broad range of areas

Performing data science tasks in the AI team, including data analysis and transformation

Discovering and hunting new data critical for DS projects

Developing data processing and transformation pipelines

Working in the team with data scientists, ML engineers and developers on building the intelligent capabilities into company products

Researching, experimenting, prototyping and building models and components for content

understanding pipelines, including state of art neural architectures for Information Retrieval, NLP or/and Computer Vision

Developing, transforming and reinforcing the quality datasets needed for specific natural language processing, computer vision and information retrieval tasks

### **Requirements**

3+ years of software development experience with Python knowledge

Proficiency in Python, with a strong understanding of the core language and major frameworks

Experience with cloud platforms such as AWS or Azure

Excellent knowledge of Kubernetes, Docker, Microservices and how they communicate

Excellent knowledge of asyncio, multiprocessing, multithreading

Solid skills in algorithms and data structures

Solid knowledge of Git for version control and Linux for development environments

Ability to work independently with minimal supervision

Good verbal and written communication skills in English at a B2 level
