At Financial Services Company (Permanent), in Multiple Locations

Salary: €55.000 - €75.000

Expires at: 2024-10-21

Remote policy: Full remote

Are you a Senior Backend Engineer with a knack for seeing the big picture? We're thrilled to announce an exciting opportunity to join our team! We're seeking a talented individual who can strike the perfect balance between driving software quality and embracing a pragmatic approach to help us scale our company to new heights.

What You'll Do:

Dive headfirst into writing simple, clean, and efficient code that powers our innovative products.

Take ownership of your work with a proactive, accountable, analytical, and pragmatic mindset.

Pay meticulous attention to detail and demonstrate a strong sense of product ownership in all your contributions.

Collaborate effectively as part of a dynamic team, leveraging your communication skills

to ensure seamless coordination.

Bring a thirst for knowledge and a commitment to personal and professional growth as you embark on this exciting journey with us.

Drive positive change and efficiency by collaborating closely with partners across different disciplines, championing innovation every step of the way.

Main requirements

At least 5 years of hands-on experience as a Backend Engineer, demonstrating a deep understanding of web-based technology applications.

Experience in developing, deploying, and maintaining applications using Ruby on Rails is preferred. However, a strong ability and interest in working with Ruby on Rails will also be considered.

Solid knowledge of Object-Oriented Programming (OOP), clean coding practices, Test-Driven Development (TDD), and agile methodologies. Familiarity with Functional Programming and Domain-Driven Design (DDD) is advantageous.

Experience with other programming languages such as Javascript, Elixir, Scala, and Python is highly valued. The ability to adapt and learn new languages and technologies is essential.

Fluency in English, both written and spoken, is required to effectively communicate with team members and stakeholders.

Benefits & Perks

23 vacation days + 2 days of free disposal per year.

Professional development with English and Spanish classes, and 13 other different languages to learn

Flexible compensation plan for transportation, restaurants, and kindergarten

Health insurance discounts

Remote work
