We are dynamic software house that excels in delivering cutting-edge applications and mobile solutions. With a passion for innovation, our expert team crafts robust software applications, responsive websites, and customized solutions that cater to your unique business needs. We thrive on transforming ideas into reality, empowering companies' digital presence and driving their success forward. We have a dynamic and collaborative work environment that fosters creativity and offers ample opportunities for professional development.

A Senior Software Developer you will be responsible for designing, implementing, and maintaining the server-side logic of our applications. You will collaborate closely with our product, design, and front-end development teams to create robust and scalable solutions. The ideal candidate should have at least 5 years of experience as a Senior Software Developer, with a passion for building efficient and reliable systems.

Responsibilities:

Collaborate with cross-functional teams to understand project requirements and translate them

into technical specifications.

Develop high-quality web applications using modern technologies and frameworks.

Implement database solutions using both SQL and NoSQL databases to optimize data storage and retrieval.

Conduct thorough testing and debugging of applications to ensure optimal performance and user experience.

Optimize applications for performance, scalability, and security.

Participate in code reviews to maintain code quality and adherence to best practices.

Design and develop scalable and efficient server-side applications using a variety of programming languages and frameworks.

Stay updated with the latest developments in technologies and apply them to enhance our systems.

Main requirements

Minimum of 5 years of experience as a Software Developer.

Proficiency in at least one programming language such as JavaScript, Python, Java, C#, Node.js, Ruby, etc.

Experience with RESTful APIs and web services.

Experience with database design and management using SQL and NoSQL databases.

Knowledge of version control systems (e.g., Git) and collaborative development workflows.

Familiarity with cloud platforms (e.g., AWS, Azure, Google Cloud) and experience with cloud deployment.

Solid understanding of object-oriented programming principles and design patterns.

Understanding of agile development methodologies and tools.

Ability to work independently and as part of a team, managing priorities and meeting deadlines.

Excellent problem-solving and analytical skills.

Strong communication and interpersonal skills.

A passion for learning new technologies a

Benefits & Perks

Competitive salary and comprehensive benefits package.

Opportunity to work in a fast-growing startup environment with a talented and passionate team.

Professional growth and learning opportunities to enhance your skills and knowledge.

Flexibility in working hours and location.

A supportive and inclusive work environment that values creativity and innovation.

Join our team of dedicated professionals and contribute to the success of our innovative applications and mobile solutions.
