## Senior Software Engineer (Backend)

[Apply Now](#)

Company: Insider

Location: İstanbul

Category: other-general

Before jumping in on all the information about the role and what you can bring to the table, let us introduce ourselves real quick. **About us**Hi there! We are Insider, a B2B SaaS company that drives growth for its clients around the world. How are we achieving this? We are connecting data across channels, predicting future behavior with AI, and individualizing experiences from a single platform with the fastest time to value. We announced that we unlocked our unicorn status after our Series D round. We are backed by top-notch investors including Sequoia Capital, QIA, Riverwood, Endeavor Catalyst and trusted by 1000+ brands from high-growth startups to the most prestigious Fortune 500 companies such as Singapore Airlines, Virgin, Nestle, Nissan, Samsung, Lenovo, Puma, MediaMarkt, IKEA, Allianz, Santander, Dominos, Avon, CNN, and the list goes on. We are the #1 Leader everywhere! We are recognized as a leader in The Forrester Wave™ for Cross-Channel Campaign Management in Q3, 2021. We are also named a leader in 2021 Gartner® Magic Quadrant™ for Personalization Engines. But wait, there is more. For 21 quarters in a row, we've been ranked as a leader in G2 Mobile Marketing, Personalization, Customer Data Platform, and Customer Journey Analytics Grids. We are also proud to become one of the very few female-led B2B SaaS unicorns in the world. Behind all these achievements, there is an exceptionally talented and passionate team across 28 countries that moves fast and agile, creates cutting-edge products, and focuses on making an impact. If you want to join us in this journey, just keep reading. And now? Now we are looking for a Senior Software Engineer, who will help our team create and implement a wide variety of web-based products using PHP and Go or , and wants to **take their career one step further**. If you think you are one of those

people, here you will have the chance to work with **the world's leading brands with Artificial Intelligence & Machine Learning technologies**. Right now, while you are reading this, **we are sending an average of billion requests and almost 2 billion instant notifications to more than 450 servers a day**. On the **Artificial Intelligence and Predictive side, we have more than 100 TB of historical data**. We do not wait for jobs or opportunities to come to our feet, we create them. We have now reached **25% of global users**. If all these interests you, read on for more! Our Engineers and Software Developers always think with an **innovative perspective**, taking advantage of the inexhaustible power of the digital world. They create **impressive and intelligent products** like a true artist. Our Product and Development teams are located in our Istanbul and Ankara offices, **we produce and develop the technology we export to the world in our own country**. As Insider, we believe in cooperation and adapting the innovations brought by technology by **acting fast**. We work **closely with other Departments with agile teams, and we are not afraid of getting our hands dirty**. As we said; we do not wait for jobs or opportunities to come to our feet, we create them ourselves. You can check our Tech Stacks !
