

## Senior Software Engineer

[Apply Now](#)

Company: Publishing Company

Location: Izmir

Category: other-general

At Publishing Company (Permanent), in United Kingdom

Salary: €60.000 - €100.000

Expires at: 2024-07-21

Remote policy: Full remote

You'll be an integral part of our book editing tool team, collaborating closely with designers and engineers to bring new features to life. Here's a glimpse of what you'll be up to:

Collaborate with our talented designers and engineers to conceptualize, develop, and deploy innovative features from the ground up.

Enhance the functionality of our cutting-edge, collaborative word processor, continuously expanding its capabilities.

Create visually stunning book templates tailored for e-readers and print, enriching the user experience and delivering real value to our customers.

Architect and build highly scalable web applications, ensuring seamless performance and reliability.

Assess and enhance the performance, resilience, and security of applications in production, driving continuous improvement.

Take full ownership of your tasks, guiding features from inception to completion with precision and dedication.

Support the growth and development of your teammates by providing constructive feedback during code reviews and embracing feedback in return.

### **Main requirements**

Professional experience with NodeJS, VueJS, TypeScript and NoSQL (Redis, MongoDB) databases

A good understanding of modern HTML and CSS

Strong test-driven approach to development

Perfectly fluent in English

Enjoy working remotely

### **Nice to have**

Professional experience with building and deploying Single Page Apps

Knowledge of ShareDB and LaTeX

Experience with CSS pre-processors, such as SASS or LESS

Experience with build-chain and deployment automation tools, such as Webpack and Github Actions

### **Benefits & Perks**

Work from home

Flexible schedule

Parental leave

Annual retreat
