[Apply Now](#)

Company: Amazon Turkey Yonetim Destek Hizmetleri Limited Sirketi - H79

Location: İstanbul

Category: other-general

Türkiye Supply Chain team is looking for a motivated, experienced and talented Senior Supply Chain Analyst. You will contribute to build the future of Amazon in Türkiye by analyzing and solving the increasingly complex Supply Chain problems faced by the region and interfacing with Operations, Transportation and Amazon Store teams, you will be in charge of improving customer experience and inventory management in a growing environment.

The successful candidates will be a data detective with strong analysis skills, prioritize well, communicate clearly and have a consistent track record of delivery. You must have the experience and capability to create and present documentation for senior executives and align your roadmap with Amazon's strategic objectives. Excellent written and verbal communication skills are essential. You should be experienced in working with data to analyze root causes, implementing long-term solutions and solving supply chain problems through advanced analytical capabilities.

Key job responsibilities

- Plan weekly Inbound & Outbound forecast for Türkiye FC network.
- Steer the network on a weekly basis concerning operational issues with our fulfillment centers and transportation network.
- Work closely with the Retail, Fulfilled by Amazon, FC Operations, Transportation teams in areas including Sales and Operations Planning, Placement and Customer Fulfillment.
- Develop deep understanding / technical proficiency on all Supply Chain tools
- Lead complex analysis, develop models and reports to drive key strategic decisions and

support implementation on Operations topics across the region

- Standardize methodologies and findings, develop tools to support the increasing complexity of Türkiye's Supply Chain
- Partner with MENA Supply Chain teams to coordinate initiatives for Turkish market
- Development and execution of network design and optimization strategy to support cost reductions, increase delivery speed and improved delivery experience for customers
- Lead regional projects and support implementation on Inbound & Outbound Supply Chain topics that improve the performance and execution

We are open to hiring candidates to work out of one of the following locations:

Istanbul, TUR

BASIC QUALIFICATIONS

- Completed Bachelor's, preferably Master's Degree from an accredited university
- Relevant professional experience in planning, forecasting and/or Supply Chain
- Strong data analysis skills, ability to produce, interpret and draw conclusions from data
- Strong proficiency in Microsoft Excel
- Excellent written, verbal, listening, communicating, and negotiating skills coupled with ability to comfortably and confidently present to all levels within the enterprise is required

PREFERRED QUALIFICATIONS

- Previous experience in a similar role / relevant work experience will help you to get started faster but is not a requirement
- Knowledge of SQL / R / any data analytics tool is a plus
