

Turkey Jobs Expertini®

Senior Supply Chain Specialist

[Apply Now](#)

Company: Quaker Houghton

Location: İstanbul

Category: other-general

About the job

Quaker Houghton is a global leader present in many people's lives thanks to the fluid solutions we offer to the automotive, aerospace, beverage, construction and other pillar sectors of our economy.

The Senior Supply Chain role is a key part in a team effort to achieve optimal supplier performance for the Turkish region, in addition to working with the EMEA team on process improvement projects. An ideal opportunity to join us at a time when we are investing to strengthen our market position.

Join the team and let's do great things together!

What will you do?

The primary responsibility is to lead, develop and manage internal and external suppliers for the Turkish Supply Chain while ensuring proper administration. Ensuring all suppliers are delivering the agreed business needs, including managing EHS standards and measuring KPIs.

In addition to the specific duties for Turkey, this role works with the EMEA Supply Chain and the Supply Chain Project Manager in respect of external supply chain spending on warehousing, logistics and contract manufacturing while investigating future scenarios for optimization.

Build and develop relationships & agreements with Turkish Supply Chain Suppliers that deliver continuous improvements, innovation and value creating opportunities

Ensure all transactions for goods into and out of the Turkish warehouse are completed in a timely manner to support customer invoicing – all discrepancies and complaints being investigated, corrected and where possible process improvement put in place to remove root cause.

Ensure all required documents for Turkish warehouse, tax/ customs and freight carriers are available on time in full to support deliveries of goods to customers

Ensure that all supply chain processes that support the Turkey Supply Chain are SOX compliant and meet the requirements of internal and external business controls - working closely with Finance and relevant stakeholders.

Lead the analytical requirements of the EMEA Supply Chain that support the identification and management of business improvements and cost savings – working with colleagues across EMEA to ensure maximum optimization.

Support the EMEA Supply Chain Manager in the control and reporting of EMEA external supply chain spend on warehousing, logistics.

Systems: Optimize process in the current system (D365 Dynamics/Navision) while considering JDE roll out long term. Post JDE roll out, working with external warehouse supplier, implement systems, processes and procedures to minimize the resources used for inbound and outbound administration in JDE for Turkey.

What are we looking for?

Experience: Ideally 5 years experience in a similar role, ideally within a manufacturing environment.

Any additional training needed, will be provided upon onboarding.

Languages: English & Turkish professional level spoken and written is a must.

Soft skills: Team player, High Communication skills, Attention to detail, Growth Mindset and High Safety conscious. Safety is at the core of our culture.

Based in the Istanbul area.

Who are we?

We are a global leader in industrial process and mechanical engineering present in 40+

countries. We are continually improving and innovating so the world's industrial manufacturers can stay ahead in a changing world. Throughout our 100+ locations, our engineers, chemists and industry experts partner with our customers to play a key role in helping them run even more efficiently, even more effectively, whatever comes next.

Our values: Live Safe, Exceed Customer Expectations, Drive Results, Embrace Diversity and Do Great Things Together.

Our core values embody who we are as a company, guide our decisions and inspire us. Our commitment to these values, in words and actions, builds a safer, stronger Quaker Houghton. They are the fundamental beliefs that guide our internal conduct and our relationship with the outside world.
